

Installation Services:

Removing/Installing Plants:

We offer plant removal/installation services. We are highly experienced in this field and help transform many yards in the Dublin area by removing and installing plants at a reasonable price.

- Dealer Stock License—access to wholesale nursery stock and a wide variety of plant material for your landscape.
- College-educated designers—professional designers who can help you select the best plant material for your space to ensure the area will fill in properly and beautifully.
- Experienced laborers who understand the sciences of planting and plant care.
- View our gallery on our website! We present our quality and professionalism through our work.

Retaining Wall Construction:

We have great experience with retaining wall construction. Our retaining walls serve their purpose while also adding a beautiful component to your landscape.

- Many different materials to select from.
- Warranty and guarantees
- High-end results.
- View our gallery of retaining walls!

Patios and other Landscape Features:

We are a maintenance-based company that specializes in landscape maintenance and greenscape installations. We shifted away from patio installations in recent years, but we do offer high-end landscape installation services through our subcontractors. Contact us and ask about our hardscape construction subcontractors!

Frequently Asked Questions:

Where is the plant material purchased from?

Acorn Farms wholesale nurseries. Only licensed companies can purchase from this distributor.

Are installed plants backed by a warranty or guarantee?

Yes, we offer a 3-month plant material guarantee. We will replace any struggling plant material up to 3 months after the installation. However, the plant material must be watered and maintained. We will not cover plant material that the client did not maintain after the installation.

When are installations usually scheduled?

We tend to schedule landscape installations between June and September each season.

Any discounts for scheduling a landscape installation ahead of time?

Yes. Clients can save 10% on landscape installation projects scheduled before April 1 or after May 31.
