Maintenance Services Information

Mowing Services:

- Mowed using the appropriately sized mower according to lawn size
- Clippings collected in spring and fall, mulched in summer
- Vertical string trimming on lawn and mulch bed edges
- Professional striping and clipping collection equipment on all mowers
- Blowing and ensuring all areas are cleaned off after the service is complete
- Billed monthly according to the number of services completed that month
- Weekly or biweekly

*Full maintenance package mowing services are completed to the same standards listed above

Mulching Services:

- Mulch bed cleanup and preparation includes removal of plant debris, trimming/pruning small shrubs, rotating old mulch, and weeding
- All mulching work is completed manually—manual trimmers, shovels, weeding, edging, etc.—to ensure attention to detail and high quality
- Manual edge is formed around all mulch beds at approximately 3 inches deep
- Larger shrub trimming/pruning, plant fertilization, and pre-emergent application may be completed per client request for an additional cost
- Brown or black triple-shred fine hardwood mulch is applied at 2 inch depth

*Full Maintenance Package customers receive 10% off mulching services, scheduling priority, free pre-emergent application, and free annual flowers planted.

Spring/Fall Cleanups:

- Leaf removal, mulch bed cleanouts, etc.
- Offered early spring and late fall
- Leaves are collected and hauled away
- Plants are cut back, pruned/trimmed, and maintained. Debris is hauled away

*Included in the Full Maintenance Package at the beginning and end of the season for no additional costs.
