MEDICAL GAS SYSTEM

We partner with global leaders in **Medical Gas systems**, offering state-of-the-art technologies to healthcare providers.

Our expert team brings diverse experience to support hospitals and clinics in achieving operational excellence.

UPC ensures innovation, safety, and reliability in every healthcare project we undertake.

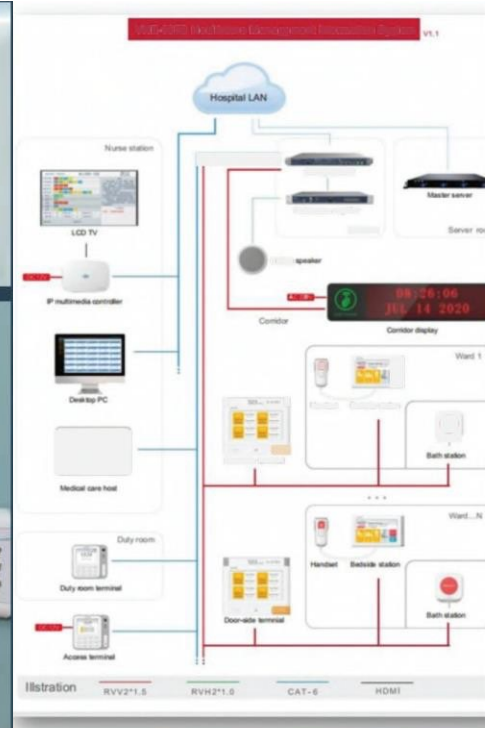

Nurse Call System

UPC Technology delivers advanced, **simple and reliable Nurse Call Systems** to healthcare providers.

We offer a **comprehensive healthcare communication and information solution** that balances functionality and ease of use.

Our platform supports **open intelligent hospital systems**, enabling seamless integration across multiple technologies.

UPC is committed to enhancing patient care through smart, connected solutions

ICU -NICU

UPC Technology provides the latest systems and equipment for **Neonatal Intensive Care Units (NICU)** and **Intensive Care Units (ICU)**.

We deliver **advanced, reliable solutions** that meet international standards and support critical care environments.

Our offerings combine **cutting-edge technology** with **competitive pricing**, ensuring value and performance for our customers.

UPC is committed to enhancing patient care and clinical efficiency in intensive care settings.

RECOVERY- EMERGENCY

UPC Technology provides the **best-in-class technology and equipment** for **recovery and emergency rooms**.

Our solutions are designed to enhance responsiveness, safety, and workflow efficiency in critical care environments.

We deliver **advanced systems** at **highly competitive prices**, ensuring exceptional value for our healthcare customers.

UPC is committed to supporting hospitals with reliable, integrated solutions tailored to urgent care needs.

CSSD Solution

UPC Technology provides the **best and latest technology and equipment** for **Central Sterile Services Departments (CSSD)**.

Our solutions ensure high standards in sterilization, safety, and workflow efficiency.

We deliver **advanced systems** at **competitive prices**, offering great value to healthcare facilities.

UPC is committed to supporting sterile processing with reliable, modern solutions.

OPERATION THEATERS

UPC Technology provides the **latest and most advanced systems and equipment** for **Operation Theaters (OT)**, also known as **Operating Rooms (OR)**. Our solutions ensure sterile, efficient, and safe environments for surgical procedures.

We offer **cutting-edge technology** at **competitive prices**, delivering exceptional value to healthcare providers.

UPC is committed to supporting surgical excellence through reliable and integrated solutions.

Medical Waste Management and Sterilization Systems

UPC Technology offers the **latest and most reliable solutions** for **Medical Waste Management** and **Sterilization Systems**.

Our technologies ensure safe, compliant, and efficient handling of medical waste and sterilization processes.

We provide **advanced equipment** at **competitive prices**, tailored to meet the needs of modern healthcare facilities.

UPC is committed to supporting infection control and environmental safety in healthcare environments.

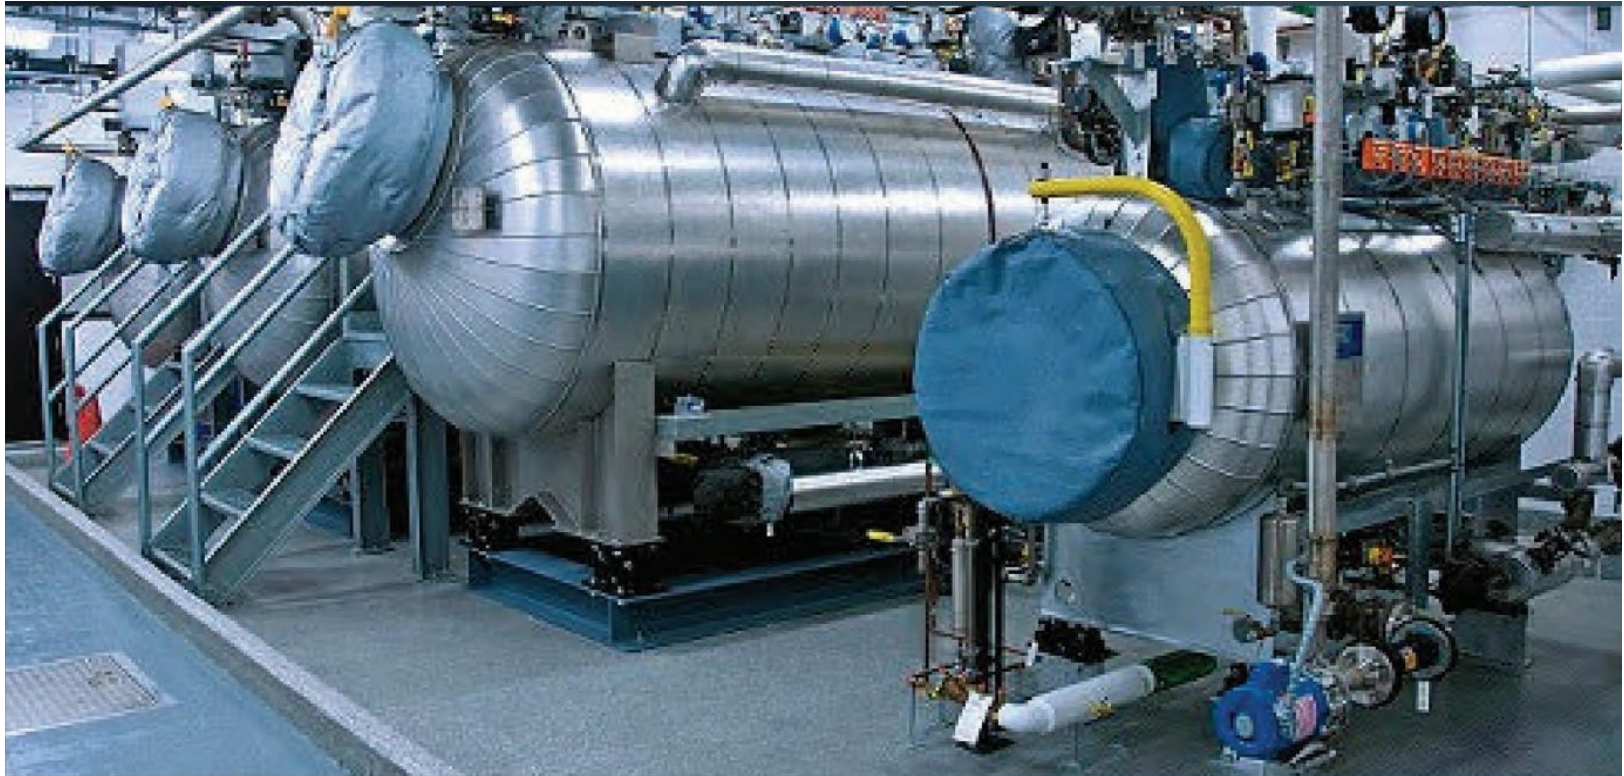

LIQUID WASTE DECONTAMINATION SYSTEM

UPC Technology provides **advanced Liquid Waste Decontamination Systems** designed for safe and efficient disposal of hazardous medical fluids.

Our solutions ensure compliance with health and environmental standards, supporting infection control and sustainability.

We offer the **latest technology** at **competitive prices**, tailored to meet the needs of modern healthcare facilities.

UPC is committed to delivering reliable systems that protect both patients and staff.

MEDICAL FURNITURE & DEVICES

UPC Technology offers a wide range of **medical furniture and devices** designed to meet the needs of modern healthcare environments.

We provide **high-quality, ergonomic, and durable solutions** that support patient care and clinical efficiency.

Our products combine **advanced design** with **competitive pricing**, ensuring value and reliability for our customers.

UPC is committed to equipping healthcare facilities with the best tools for comfort, safety, and performance.

LABORATORY INSTRUMENTS

UPC Technology supplies a wide range of **advanced laboratory instruments** designed to meet the demands of modern medical and diagnostic labs. Our equipment ensures precision, reliability, and efficiency across various testing and research applications.

We offer the **latest technologies** at **competitive prices**, delivering exceptional value to healthcare and scientific institutions.

UPC is committed to supporting accurate diagnostics and laboratory excellence

LABORATORY FURNITURE

UPC Technology offers high-quality **laboratory furniture** designed for durability, safety, and ergonomic efficiency.

Our solutions support modern lab environments with smart layouts and functional designs.

We provide the **latest furniture systems at competitive prices**, ensuring value and performance.

UPC is committed to equipping laboratories with reliable infrastructure for scientific excellence.

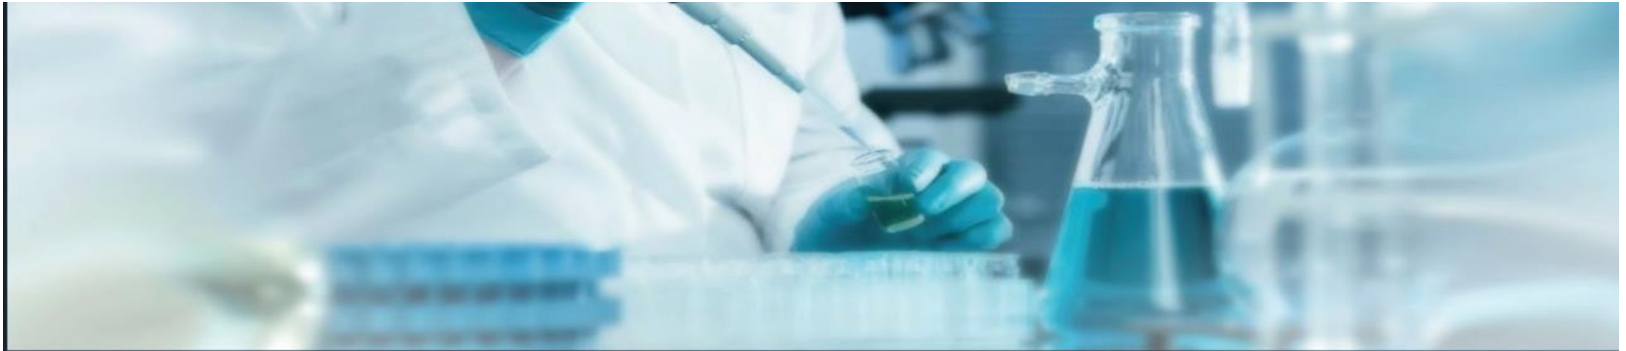

MEDICAL CONSUMABLE

UPC Technology supplies a wide range of **medical consumables** essential for daily healthcare operations.

Our products meet international standards for safety, hygiene, and performance.

We offer **high-quality consumables** at **competitive prices**, ensuring cost-effective solutions for healthcare providers.

UPC is committed to supporting hospitals and clinics with reliable, ready-to-use medical supplies

CCTV & IT INFRASTRUCTURE

UPC Technology provides **advanced CCTV and IT infrastructure solutions** tailored for **medical centers**.

Our systems enhance **security, connectivity, and data management** across healthcare environments.

We deliver **modern, scalable technologies** at **competitive prices**, ensuring reliability and performance.

UPC is committed to supporting smart, secure, and digitally integrated healthcare facilities.

5 PROJECTS

UPC Technology, in collaboration with its global partners, has successfully **executed numerous projects in the healthcare sector**, serving both **private and governmental institutions**.

These projects reflect **UPC's** commitment to delivering high-quality, innovative solutions across various medical environments.

PROHS®

PROHS is a company specialized in developing and manufacturing hospital, laboratory and veterinary equipment in the area of disinfection and sterilization. Covering all the needs of a central sterilization service (RUMED), PROHS stands out for its ability to design, produce and install Central Sterile Services Departments adapted to the needs and requirements of each Hospital or Clinic. In the laboratory area, we follow and advise our customers from an embryonic stage to develop a tailored solution reaching the sterilization and disinfection needs of each project. The constant investment in R&D and the partnerships with developing departments of some leading universities in Europe, allows PROHS to keep its products up-to-date and competitive, assuring that our sterilizers and washer disinfectors stay modern, efficient, and capable of adjusting to the demanding needs of the medical and laboratory sector.

GLOBAL PARTNERS

Famed Żywiec is a leading European manufacturer of high quality medical equipment. In over 75 years of our history, we have supplied medical facilities with thousands of top-quality operating tables, hospital beds, treatment chairs and other equipment. Famed products are used by doctors in Poland and more than 110 countries around the world, in the most demanding markets and in the most difficult conditions. We have built the strength of our brand based on the experience of Żywiec businesses and craftsmen who have specialized in this field since the 19th century. A key competitive advantage of Famed Żywiec in the dynamically developing medical industry is our qualified staff. Thanks to the commitment of a team of high-class specialists, supported by modern production equipment and unique technological solutions developed over the years, our products have an exceptional reputation, contributing to the improvement of the quality of medical care in Poland and in the world.
