

ARTIFICIAL INTELLIGENCE (AI)

1. **What does AI stand for?**
 - A) Artificial Information
 - B) Automated Input
 - C) Artificial Intelligence
 - D) Advanced Internet
2. **Which of the following is an example of AI?**
 - A) Calculator
 - B) Chatbot
 - C) Clock
 - D) Pen
3. **AI systems are designed to _____.**
 - A) Sleep
 - B) Think and learn
 - C) Paint
 - D) Forget
4. **Which company created ChatGpt?**
 - A) Google
 - B) Open AI
 - C) Microsoft
 - D) Amazon
5. **The main goal of AI is to _____.**
 - A) Replace humans
 - B) Help machines think and act like humans
 - C) Entertain people
 - D) Build robots only
6. **A self-driving car uses which technology?**
 - A) Manual controls
 - B) Artificial Intelligence
 - C) Mechanical energy
 - D) Virtual reality
7. **Machine Learning is a branch of**
 - A) Computer Networking
 - B) Artificial Intelligence
 - C) Hardware Design

D) Data Entry

8. Which of these is a voice assistant?

- A) Alexa
- B) Paint
- C) Word
- D) Calculator

9. AI can help in ____.

- A) Reading emotions
- B) Cooking food
- C) Making clothes
- D) Growing plants

10. ChatGPT is an example of ____.

- A) Social Media App
- B) Chatbot using AI
- C) Game Software
- D) File Manager

11. AI works based on ____.

- A) Data
- B) Colors
- C) Music
- D) Temperature

12. Which game first used AI for competition with humans?

- A) Chess
- B) Football
- C) Cricket
- D) Golf

13. Robots are often powered by ____.

- A) AI software
- B) Wind energy
- C) Manual labor
- D) Paint tools

14. AI helps doctors by ____.

- A) Printing papers
- B) Analyzing medical images
- C) Painting walls
- D) Managing staff

15. Which one is NOT an AI tool?

- A) Google Lens
- B) Alexa
- C) Excel Sheet

D) ChatGPT

16. Face recognition uses which AI technology?

- A) Image processing
- B) Robotics
- C) Sound control
- D) Data entry

17. What is an AI algorithm?

- A) Step-by-step instructions for a computer
- B) A machine
- C) A type of game
- D) Hardware device

18. In AI, data is used to _____.

- A) Make machines learn
- B) Paint pictures
- C) Store music
- D) Clean devices

19. Which sector uses AI for customer service?

- A) Banking
- B) Gardening
- C) Cooking
- D) Fashion

20. What does NLP stand for?

- A) New Learning Program
- B) Natural Language Processing
- C) National Logic Protocol
- D) Neural Link Process

21. AI is useful for _____ decisions.

- A) Random
- B) Logical
- C) Emotional
- D) Spontaneous

22. Which language is most used in AI development?

- A) Python
- B) English
- C) HTML
- D) JavaScript

23. Which of these can AI NOT do?

- A) Learn
- B) Think
- C) Feel emotions

D) Predict

24. Which of the following is an AI application?

- A) Face ID unlock
- B) Alarm clock
- C) Calculator
- D) Calendar

25. What does “automation” mean in AI?

- A) Doing tasks automatically
- B) Writing letters
- C) Designing art
- D) Speaking languages

26. Which field benefits most from AI today?

- A) Healthcare
- B) Fishing
- C) Construction
- D) Sports only

27. What is supervised learning?

- A) Learning from labeled data
- B) Learning without data
- C) Learning games
- D) Teaching humans

28. Chatbot is short for _____.

- A) Chat Robot
- B) Chat Room
- C) Chat Box
- D) Chatting Hub

29. Who is known as the Father of AI?

- A) Alan Turing
- B) Isaac Newton
- C) Steve Jobs
- D) Bill Gates

30. AI makes human tasks _____.

- A) Easier
- B) Harder
- C) Slower
- D) Boring

 - D) What friends say
- 6. When faced with a challenge, the first thing you should do is _____.**
 - A) Panic
 - B) Think calmly
 - C) Run away
 - D) Blame others
- 7. Setting goals helps in _____.**
 - A) Wasting time
 - B) Staying focused and organized
 - C) Avoiding responsibility

- D) Forgetting priorities
8. **Which of the following shows self-control?**
A) Shouting when angry
B) Staying calm in arguments
C) Ignoring everyone
D) Avoiding all discussions
9. **Stress management helps you to _____.**
A) Feel more tired
B) Stay calm and healthy
C) Create more problems
D) Sleep all day
10. **A positive attitude helps in _____.**
A) Solving problems effectively
B) Making more mistakes
C) Avoiding success
D) Losing focus
11. **Decision-making improves with _____.**
A) Practice and experience
B) Luck
C) Guessing
D) Waiting for others
12. **Problem-solving starts with _____.**
A) Understanding the issue
B) Skipping details
C) Copying others
D) Avoiding questions
13. **Time management means _____.**
A) Using time wisely
B) Working only at night
C) Forgetting deadlines
D) Resting all day
14. **Self-discipline helps you _____.**
A) Stay consistent and focused
B) Avoid responsibility
C) Depend on others
D) Skip important tasks
15. **Self-motivation means _____.**
A) Needing others to inspire you

- B) Encouraging yourself to achieve goals
 - C) Waiting for help
 - D) Depending on luck
16. **Which skill helps you adapt to change?**
- A) Flexibility
 - B) Laziness
 - C) Anger
 - D) Avoidance
17. **Good leaders make decisions based on _____.**
- A) Emotions only
 - B) Facts and logic
 - C) Popular opinion
 - D) Impulse
18. **Staying calm in tough situations shows _____.**
- A) Strength and self-control
 - B) Fear
 - C) Weakness
 - D) Anger
19. **Solving a problem step-by-step is called _____.**
- A) Systematic problem-solving
 - B) Guesswork
 - C) Avoidance
 - D) Experimenting
20. **Self-management involves _____.**
- A) Setting goals and managing time
 - B) Controlling others
 - C) Ignoring tasks
 - D) Complaining
21. **The opposite of procrastination is _____.**
- A) Action
 - B) Laziness
 - C) Delay
 - D) Rest

22. Which of these helps in effective problem-solving?

- A) Listening and analyzing
- B) Ignoring others
- C) Panicking
- D) Avoiding teamwork

23. Decision-making involves _____.

- A) Choosing between options
- B) Following the crowd
- C) Doing nothing
- D) Waiting for results

24. The best way to stay organized is _____.

- A) Keeping a to-do list
- B) Forgetting tasks
- C) Leaving work incomplete
- D) Relying on others

25. Emotional balance helps in _____.

- A) Making clear decisions
- B) Acting out of anger
- C) Overreacting
- D) Ignoring people

26. Reflection after decision-making helps you _____.

- A) Learn from experience
- B) Repeat mistakes
- C) Forget lessons
- D) Blame others

27. Time blocking is a method used for _____.

- A) Planning work hours efficiently
- B) Avoiding tasks
- C) Playing games
- D) Ignoring deadlines

28. What helps you stay focused?

- A) Avoiding distractions
- B) Multitasking too much
- C) Constant breaks
- D) Noise

29. Being responsible means _____.

- A) Owning your actions
- B) Blaming others
- C) Avoiding duties

D) Ignoring deadlines

30. **Managing emotions well shows _____.**

- A) Emotional intelligence
- B) Physical strength
- C) Ignorance
- D) Overconfidence

Entrepreneurship (Idea Pitching, Business Planning & Social Innovation)

1. **Who is an entrepreneur?**

- A) Someone who works for others
- B) Someone who starts and runs their own business
- C) Someone who invests in the stock market only
- D) Someone who only manages money

2. **What is a business plan?**

- A) A holiday schedule
- B) A document outlining business goals and strategies
- C) A marketing jingle
- D) A social media post

3. **What does “startup” mean?**

- A) A large company
- B) A new business venture
- C) A government project
- D) A social club

4. **What is an idea pitch?**

- A) A long speech
- B) Presenting your business idea briefly and clearly
- C) Writing a report
- D) Selling a product

5. **Innovation means _____.**
 - A) Copying old ideas
 - B) Creating something new or improving something existing
 - C) Avoiding change
 - D) Following the crowd
6. **Which of the following is an example of social entrepreneurship?**
 - A) Opening a charity-based recycling business
 - B) Owning a sports shop
 - C) Starting a private school
 - D) Selling electronics
7. **The main goal of social innovation is _____.**
 - A) Making quick profits
 - B) Solving community problems
 - C) Creating ads
 - D) Building luxury products
8. **What is profit?**
 - A) Income after deducting expenses
 - B) Total income
 - C) Total expenses
 - D) Savings in a bank
9. **What does ROI stand for?**
 - A) Rate of Income
 - B) Return on Investment
 - C) Resource on Information
 - D) Revenue of Industry
10. **Who is a customer?**
 - A) Someone who sells products
 - B) Someone who buys products or services
 - C) Someone who manages employees
 - D) Someone who invests in startups
11. **A business idea should always _____.**
 - A) Solve a real problem
 - B) Be copied from others
 - C) Ignore customer needs
 - D) Focus only on design
12. **What is marketing?**
 - A) Selling old goods
 - B) Promoting and selling products or services
 - C) Manufacturing only

D) Hiring staff

13. What is a prototype?

- A) A final product
- B) A sample model used to test an idea
- C) A software tool
- D) A business partner

14. What is the first step in starting a business?

- A) Finding a problem or opportunity
- B) Printing visiting cards
- C) Hiring employees
- D) Building an office

15. Networking in entrepreneurship means _____.

- A) Meeting and connecting with other people in business
- B) Installing internet
- C) Advertising online
- D) Social media chatting

16. An investor provides _____.

- A) Training only
- B) Money and mentorship
- C) Free products

 - D) Using strong Wi-Fi
7. **What is malware?**
- A) A healthy software
 - B) A harmful program that damages devices
 - C) A video game
 - D) An online shopping app
8. **What does "https" in a website mean?**
- A) It's a secure website
 - B) It's a fake website
 - C) It's an offline page
 - D) It's a mobile app
9. **What is two-factor authentication (2FA)?**
- A) Using two devices
 - B) Using two passwords
 - C) An extra security step for login

D) Sharing your password with friends

10. What is a digital footprint?

- A) Marks on the ground
- B) Your activity and data left online
- C) Shoe size
- D) Website design

11. Which of the following is safe online behavior?

- A) Sharing personal details
- B) Using strong passwords
- C) Clicking all links
- D) Posting your location publicly

12. What is a firewall?

- A) A wall in a building
- B) Software that protects a network from attacks
- C) A type of virus
- D) A gaming app

13. What is antivirus software?

- A) A computer cleaning tool
- B) Software that protects against viruses and malware
- C) A photo editor
- D) A game

14. Why should you log out of shared devices?

- A) To protect your account from misuse
- B) To save time
- C) To increase storage
- D) To update the system

15. What is ethical use of the internet?

- A) Using it responsibly and honestly
- B) Copying others' work
- C) Hacking systems
- D) Spamming emails

16. Which of these is an example of cybercrime?

- A) Sending viruses to others' computers
- B) Playing games
- C) Watching tutorials

D) Using email safely

17. What is identity theft?

- A) Losing your ID card
- B) Someone stealing your personal information online
- C) Buying a fake ID
- D) Forgetting passwords

18. Why should you avoid suspicious links?

- A) They may contain viruses or scams
- B) They're boring
- C) They use too much data
- D) They're slow to load

19. What is encryption?

- A) Locking data so only authorized users can read it
- B) Writing messages on paper
- C) Saving files offline
- D) Installing new software

20. If someone sends you abusive messages online, you should ____.

- A) Ignore and block/report them
- B) Reply angrily
- C) Keep chatting
- D) Post it publicly

21. Who should you report cyber issues to?

- A) Cybercrime authorities or trusted adults
- B) Your friends
- C) Online strangers
- D) No one

22. What is data backup?

- A) Storing a copy of your important files safely
- B) Deleting old data
- C) Formatting a device
- D) Saving photos only

23. Why is privacy important?

- A) It keeps your personal information safe
- B) It slows your device
- C) It wastes storage

D) It hides files

24. What is fake news?

- A) False or misleading information spread online
- B) News from newspapers
- C) Breaking news
- D) Paid advertisement

25. What is social engineering?

- A) Manipulating people to reveal confidential information
- B) Designing websites
- C) Building social media apps
- D) Posting videos

26. What is cyber awareness?

- A) Knowing how to stay safe online
- B) Playing games
- C) Learning coding
- D) Making friends online

27. Why is plagiarism unethical?

- A) It means copying someone else's work without credit
- B) It saves time
- C) It's allowed on the internet
- D) It's creative

28. What is online ethics?

- A) Following moral rules while using the internet
- B) Posting anything freely
- C) Hacking accounts
- D) Avoiding passwords

29. What is Cyber Awareness Day about?

- A) Educating people about online safety
- B) Playing games
- C) Posting selfies
- D) Downloading apps

30. Safe online behavior includes _____.

- A) Using strong passwords and avoiding unknown links
- B) Sharing all information
- C) Ignoring privacy settings

D) Using open Wi-Fi for banking

Money & Finance Skills

1. What does the word “finance” mean?

- A) The study of computers
- B) The management of money
- C) The art of cooking
- D) The act of shopping

2. What is a budget?

- A) A list of things to buy
- B) A plan for how to spend and save money
- C) A diary
- D) A shopping list

3. Why is saving money important?

- A) To waste later
- B) To meet future needs or emergencies
- C) To show off
- D) To earn friends

4. Which of the following is an example of income?

- A) Paying rent
- B) Earning a salary
- C) Buying groceries
- D) Paying electricity bill

5. Which of these is an expense?

- A) Salary
- B) Investment return
- C) Grocery bill
- D) Bonus

6. What does ATM stand for?

- A) Auto Time Machine
- B) Automated Teller Machine
- C) Any Time Money
- D) Account Transfer Method

7. What is a digital wallet?

- A) A physical purse
- B) An app used for online payments
- C) A wallet for cash
- D) A card holder

8. Which of the following is a UPI app?

- A) Instagram
- B) Google Pay
- C) YouTube
- D) Zoom

9. What is online banking also called?

- A) E-banking
- B) Street banking
- C) Cash deposit
- D) ATM service

10. Why should you not share your bank PIN?

- A) It changes often
- B) It can be misused to steal your money
- C) It is not important
- D) It's written on your card

11. What is interest?

- A) Extra money earned or paid on loans or savings
- B) A shopping discount
- C) A type of tax
- D) Bank fees

12. What is a loan?

- A) Borrowing money that must be repaid
- B) A donation
- C) A gift
- D) Bank savings

13. What does EMI stand for?

- A) Equal Money Income
- B) Easy Money Input
- C) Equated Monthly Installment
- D) Extra Monthly Interest

14. What does “investment” mean?

- A) Spending all your money
- B) Using money to earn profit or growth
- C) Saving cash in a drawer
- D) Buying fast food

15. Which of the following is a safe investment?

- A) Lottery
- B) Fixed Deposit
- C) Gambling
- D) Borrowing

16. What is inflation?

- A) A fall in prices
- B) An increase in the general price level
- C) A banking service
- D) A type of tax

17. What is the role of the RBI in India?

- A) Controls schools
- B) Prints and manages the money supply
- C) Runs online shopping sites
- D) Manufactures goods

18. Why should you keep receipts?

- A) For fun
- B) For proof of payment or record keeping
- C) To show friends
- D) To collect designs

19. What does “cashless transaction” mean?

- A) Payment without using physical cash
- B) Using only coins
- C) Using cheques only
- D) Paying in cash

20. A debit card is used to _____.

- A) Withdraw or spend your own money from the bank
- B) Borrow money from the bank
- C) Add funds to an account
- D) Apply for a loan

21. What is the main difference between saving and spending?

- A) Saving keeps money for future; spending uses it now
- B) Both are same
- C) Saving is wasting
- D) Spending earns money

22. What is a credit card?

- A) A card to access savings

Coding & Technology (Python, App Development & Web Tools)

1. What is coding?

- A) Typing random letters
- B) Writing instructions for a computer to follow
- C) Drawing pictures
- D) Talking to computers

2. What is a programming language?

- A) A language used to give commands to computers
- B) A spoken language
- C) A type of computer
- D) A website

3. Which of the following is a programming language?

- A) Instagram
- B) Google
- C) Python
- D) Chrome

4. What is Python mainly used for?

- A) Web development, AI, and data analysis
- B) Painting
- C) Cooking apps

D) Only gaming

5. What is a variable in coding?

- A) A type of computer
- B) A code error
- C) A color in design
- D) A storage space for data or values

6. What is an algorithm?

- A) A game
- B) A type of virus
- C) A step-by-step method to solve a problem
- D) A machine

7. What is an app?

- A) A video
- B) A TV show
- C) A website link
- D) A software designed to perform specific tasks

8. What is debugging?

- A) Finding and fixing errors in code
- B) Playing games
- C) Adding new colors
- D) Copying programs

9. Which of these is a web browser?

- A) Excel
- B) Python
- C) Chrome
- D) Paint

10. What does HTML stand for?

- A) Hyper Text Machine Language
- B) High Text Markup Language
- C) Hyper Text Managing Logic
- D) Home Tool Machine Language

11. What does “www” stand for?

- A) World Wide Web
- B) Wide World Window

- C) Web Work Way
- D) Web Watch Word

12. What is a website?

- A) A collection of web pages accessible online
- B) A computer virus
- C) A social media app
- D) A storage folder

13. What is an app developer?

- A) A hardware engineer
- B) A person who designs and builds apps
- C) A social media user
- D) A computer seller

14. What does GUI stand for?

- A) General Utility Information
- B) Global User Input
- C) Graphical User Interface
- D) Graphical Usage Identifier

15. What is an operating system?

- A) Software that manages computer hardware and programs
- B) A web page
- C) A video file
- D) A type of phone

16. Which of the following is an operating system?

- A) Chrome
- B) Paint
- C) Photoshop
- D) Windows

17. What is open-source software?

- A) Software that anyone can use, modify, and share freely
- B) Paid software
- C) Private apps
- D) Locked programs

18. What is cloud computing?

- A) Storing and accessing data online instead of your computer
- B) Storing files on paper
- C) Printing documents

D) Using USBs

19. What is a database?

- A) A type of code
- B) A password
- C) A structured collection of data
- D) An image file

20. AI stands for ____.

- A) Artificial Intelligence
- B) Automatic Information
- C) Active Input
- D) Auto Interface

21. What will this code display: print("Hello World")?

- A) Error
- B) Hello World
- C) World Hello
- D) Nothing

22. What is indentation in Python?

- A) A keyword
- B) The space used to define code blocks
- C) A type of comment
- D) A variable name

23. What is a syntax error?

- A) A mistake in writing code rules
- B) A virus
- C) A hardware issue
- D) A graphic bug

24. What is Scratch?

- A) A mobile game
- B) A visual coding tool for beginners
- C) A data file
- D) A virus scanner

25. What is a mobile-friendly website?

- A) A desktop-only site
- B) A slow-loading site
- C) A site that works well on smartphones

D) A social media page

26. What does URL stand for?

- A) Unified Resource Link
- B) Uniform Resource Locator
- C) Universal Reference Line
- D) Unique Response Locator

27. What is a chatbot?

- A) A program that interacts with users through messages
- B) A video editing tool
- C) A text file
- D) A website password

28. What is a file extension?

- A) A folder name
- B) A web address
- C) A coding function
- D) The part of a file name that shows its type (e.g., .txt, .jpg)

29. What is app prototyping?

- A) Writing a report
- B) Creating a basic version of an app for testing
- C) Designing posters
- D) Downloading files

30. Why is learning coding important?

- A) It's only for engineers
- B) It helps in solving problems and creating technology
- B) It's used for chatting
- C) It's used in games only
