Hope to the Nations

Vol. 3

Dear friends,

This winter in the southern Algarve was unusually intense. We experienced historic rainfall—so much that at times water even came into the house and some of the walls became damp. It was a challenging season for us. All the more, we are grateful now that the sun is appearing more often again and everything can slowly begin to dry.

New life at Casa Calma

At Casa Calma, more life is slowly beginning to return as well. The first **Pilates classes** have already started, and we are very happy about the first participants who are benefiting from our community space. Starting in April, there will also be a second mom-and-child class. It is beautiful to see how, step by step, small **spaces for connection** are developing.

Prayer for work

At the same time, an important question continues to occupy us: what kind of jobs could we take on alongside our association work to provide for our livelihood here? We would really appreciate your prayers for this—that doors would open and that we would find work that fits well with the ministry we are building here.

Prayer for community

From the very beginning we have also carried a special desire in our hearts. We are praying that another family would join us to help build the ministry here together. Our deep wish is not to remain the only believers here locally, but to have community and walk this path together. Over the last two months we have already been able to experience how beautiful that can be—friends from Austria are currently living here in the village with their children until Easter.

Financial partnership

Financially, we also continue to depend on support. That is why we are still looking for people who would like to partner with us through a **monthly contribution**. Every regular partnership helps us remain present here for the long term.

Thank you so much for your prayers and your messages!

Feel free to reply directly to this email—we would love to hear from you and are also happy to pray for your requests.

Warm greetings,
Family Rager
