## LET'S NURTURE THE CHILD IN EACH OF US ...

Children are curious, creative and imaginative. They embrace discovery and wonder. They are natural learners. These are precious qualities that should be nurtured and stimulated throughout life. Lifelong creativity, imagination and learning are stimulated by playful activities that encourage hands-on and minds-on creation, fun, togetherness, and the sharing of ideas.

People who have a childlike urge to learn are thus best equipped to thrive in a challenging and changing world, and to become the builders of the future. That's why we have made it our mission to nurture the child in each of us.

And we'll do this by providing quality products and experiences that stimulate creativity, imagination, fun and learning.

# Hi! I want to see, listen

Plump, clucking hen with her chick carefully hidden inside her tummy. There are dozens of creative ways to mix and stack the brightly coloured elements made of fun-to-touch materials. Includes bell, teether, rattle and chirping chick. A mirror in the base provides hours of stimulation and amusement.  
**3161 Soft Stacking Hen**  
From 6 months.

Strap this friendly creature to your baby's wrist and watch as it absorbs his or her attention. Also straps onto the crib, stroller or car seat.  
**3172 Soft Frog Rattle**  
From 3 months.

Simply press the worm into the Musical Apple to produce soothing naptime sounds. At playtime you and your baby will enjoy rocking, spinning, and rolling the apple as it plays its happy tune. Soon its amusing dancing movements and music will inspire your baby's first crawling movements.  
**2973 Musical Apple**  
From birth.

# touch, grasp it all ...

## Nourish those tender senses

All five senses are ready for use from the moment your baby is born – if not before. And your loving care, smiles and affection bring them on in the most natural way. But you can give your baby's earliest sensory experiences extra nourishment through cheerful colours and patterns, soft shapes and materials, gentle, rhythmic music, and with toys created to develop just as rapidly as your baby.

Your new baby will love gazing at the friendly faces and warm colours. Later, there's the fun of testing itchy gums on the smooth pieces, and shaking them to hear the rattling noises. Ideal for the cot, car and pram.

**2514 Activity Friends**  
From birth

**Touching! Grasping!**  
Playing peek-a-boo! Thanks to the many colours, the mirror, the rattle, and the different textures and patterns, there are lots of possibilities here for fun and challenging investigation. Hang in the crib or the car, or spread on the floor. When folded as a triangle, the mirror stands up and encourages your baby to rise up to see his or her reflection.  
**3169 Crib and Mirror Adventure**  
From birth.

The little friend that goes everywhere with your baby – easily straps to crib, stroller, car seat, etc.  
**3162 Take Along Friend**  
From 6 months.

A wonderful companion for your baby during teething. Designed to soothe itching gums, your baby will also enjoy staring at and playing with this colourful, smiley-faced teether.  
**3173 Caterpillar Teether**  
From 3 months.

Your baby will love gazing at the happy face and soothing sore gums on the soft and hard textures.  
**3212 Star Teether**  
From 3 months.

**LEGO.COM**

MONTHS  
0+

LEGO BABY

Oops! What happened?  
How did you do that???

Your baby will love the frosted surfaces and enjoy toppling the easy-to-stack tower with the smiley-faced character.  
**3237 Stacking Tower**  
From 6 months.

8

Fascinating to hold and roll for both you and your baby. Fun faces and stimulating patterns and designs pop up with every turn. Soon your baby will be eagerly crawling after this fun-filled toy!  
**3236 Roll 'n' Play**  
From 6 months.

This bendy caterpillar bounces up and down when your baby tries stacking the bricks on its arching back. Easy to push and pull around. Wheel it across the floor and get your baby crawling!  
**1457 Caterpillar**  
From 6 months.

## Encourage your insatiable natural learner

Your child is no longer a small baby – your child is ready to learn how to stand up and walk, think, and talk. Your child learns from anything and anyone. Your child absorbs impressions and expressions at lightning speed from you and other carers, brothers, sisters, and other toddlers. Your child is beginning to understand similarities and differences, matching and sorting, action and reaction. So why not give your child tools that will stimulate inborn curiosity and the desire to learn new skills and abilities?

Propeller spins. Wheels turn. Imagination soars!  
**3160 Play Plane**  
From 6 months.

Cute, blinking frog squirts water when pressed – watch out when your baby takes aim!  
**1456 Squirt Frog**  
From 6 months.

A mouse, a frog, a chicken. Each with their own colour, shape and house. A fun way to introduce similarities & differences and stacking & sorting.  
**3238 Shape and Colour Sorter**  
From 9 months.

Disney's  
**BABY MICKEY**

By playing together, Baby Mickey and Baby Minnie help develop motor skills and introduce baby to role-play. The building plate is fun to build up and knock down.  
**2594 Disney Baby Mickey and Baby Minnie Playground**  
From 6 months

It's fun to put the cars together, toot the horn, and push the train round and round!  
**2974 Play Train**  
From 6 months.

It turns from a convenient place to store the LEGO elements and building plate that come with it into a handy support when your baby develops the urge to stand and walk. Stable design that won't tip over.  
**2010 Toddler Truck**  
From 9 months

LEGO

# I'll do it my way ...

## Help creativity get the better of your child

Give your child the chance to experiment over and over again, stacking things up and pulling them down, putting things together and taking them apart, playing and learning about the way objects can be transformed. Give your child toys that don't impose limitations but encouragement to express individual ideas and perceptions, train motor skills and stimulate imagination. Give your child the best construction toy available to encourage child-driven learning through creativity and fun!

A variety of shapes and colours toddlers can use to create a world of their own.  
**2242 Brick Time**  
From 18 months

The ideal foundation for every toddler's wildest dreams.  
**2304 Building Plate**  
From 18 months

The cute car makes two different sounds. Your toddler will love building and using this simple track. It's great fun to drive the car round and round the track and to open the bridge to let the boat pass. Extend the fun by combining with other LEGO® DUPLO bricks and mini-figures.  
**3267 Brick Runner**  
From 2 years.

Girls especially love to act out family-based stories like feeding, walking and comforting a baby. Encourage even more new stories by combining with the LEGO DUPLO Playhouse (2942).

**1404 Racing Tiger**  
From 18 months.

**1405 Racing Lion**  
From 18 months.

**1406 Nursing the Baby**

**2734 Straight Rails**  
From 2 years

**2735 Curved Rails**  
From 2 years

# I take a ride on your train?

## Creating universes for role-play

Building familiar things from real life is fun – and so is playing together. Having a part to play is also great: being the engineer who builds the railway and everything around it; the shunter who moves the wagons; the guard who sends the train off; the crossing keeper who raises and lowers the barriers; the railway dispatcher who decides whether to go right or left, through the tunnel or stop at the station; or the operator who helps to decide what is going to happen next!

A complete train world for the most imaginative toddlers!  
Set includes enough track for two circuits, easy-to-switch points, a motorised train with wagons, a crossing, and an overhead grain hopper.  
Years of fun for everyone.

LEGO DUPLO

# Will you help Mummy

## Encourage imaginative and social interaction

Little girls love role-play from their own everyday lives and they love making up games based on their own observations. They also sort out quite a bit when they play families. But very few dolls are of a size that little two-year-old hands can handle – or they look like fashion queens your little girl doesn't exactly need to idolize yet.

## Easy to dress and undress, nurse and love ...

Check out the new LEGO® DUPLO Dolls, babies and accessories, especially crafted for small hands and big imaginations. There are four LEGO DUPLO Dolls to choose from, any of which your child will kiss and hug, feed and nurse, praise and scold – and perhaps build a LEGO DUPLO house for?

**3088 Growing Garden**  
From 2 years

## Stimulate interpretation and a wide range of expression

Girls and boys need to figure out and express their experiences of a world that's constantly expanding, and to experiment with what they pick up at home, on television, when they're out, or on holiday.

So give them the opportunity to express themselves creatively. Help them to apply their imaginations to what they see, to rewrite the plot, to interpret and renew their experience of the world about them. Give them the chance to mould new stories, new actions and interactions every single day. To learn while they play ... and why not in the company of other infants, too?

# My car's faster than yours!

## Build up constructive action!

From an early age, children are mad about speed and being the fastest. So let your children indulge in a bit of trial and error. Let them figure out for themselves what's required to make "MY" car and "MY" racing track the best – and learn to use their heads and have fun with their playmates at the same time.

A simple pushbutton sends each car racing down the track as the TV camera records the action.

**3085 Race Action**  
From 3 years

A brave protector of the people.  
**2971 Action Police Bike**  
From 2 years

Imagine the fun your toddler can have pretending to be an action hero!

# ZOOTERS

## The Zooters are invading the house!

**LEGO.COM**  
www.LEGO.com/parents

### Acting out your fantasy world is vital

Give your child the chance to develop and act out fantasy characters that can do all those things that we can't do in real life! Characters that fool around and misbehave, stand on the table and climb up the walls, turn into other beings and assume disguises ... It will enhance your child's creative talents and ability to express him or herself.

Children just love the ever-helpful Goozle – especially its great green grabbers that can even hold a pencil or a toothbrush! And lots of things can be stored in Goozle's huge mouth too. Goozle can hang by the tail in the house, in the car, in the nursery ... wherever your child goes!  
**3263 Goozle**  
From 3 years.

Wazo listens to every word! A conversation, favourite tunes or wacky sounds: Wazo records everything – and then plays it back! Wazo also loves to hang from its soft bendy arms!  
**3265 Wazo**  
From 3 years.

Tez has a very healthy appetite and likes to eat stuff like popcorn, grapes, and other treasures. Some say Tez has even been known to eat socks – but only one at a time! Hang Tez from its long bendy tongue or let it climb the refrigerator using its sticky feet!  
**3264 Tez**  
From 3 years.

# BIONICLE™

Once, the island of Mata Nui was a paradise. Then Makuta came, bringing darkness throughout the land. Only the Toa could challenge Makuta and his savage beasts, the Rahi, and save the island and its people. But to do this,

they needed to obtain the six Great Masks of Power ... After many epic battles the Rahi were defeated, and the Toa believed their mission was completed. Little did they know that it is only just beginning!

New, more terrifying rivals suddenly appear from mysterious underground caverns! What are they? Who or what is controlling them? Can the Toa defeat them? And are you ready for more BIONICLE™ action?

In the time before time,  
when legends were young,

one word was never spoken,  
for fear that the legend was  
true.

That word was **BOHROK**:

six swarms of fierce, insect-like  
beings that use their powers to  
bring chaos to Mata Nui.

Cross the path

of the Bohrok at your peril.

Their jaws are equipped with  
ferocious fangs,

but their power comes from  
their hidden secret ...

A power so  
strong that even  
the mighty Toa  
are not safe.  
The power of the  
Krana.

**LEGO.COM**  
[www.bionicle.com](http://www.bionicle.com)

- Challenge the Bohrok in a new, interactive game
- Download your own desktop Bohrok
- Participate in the next thrilling act in the BIONICLE story
- Use online building instructions to build special characters from Mata Nui.

Never underestimate their  
strength.

Be always on your guard.

Plan well.

Act fast.

For only together can we  
survive.

The fate of Mata Nui is once  
again in the hands of –

the TOA!

# MINDSTORMS™

Create robots **you can**  
**BRING TO LIFE AND**  
**CONTROL!**

## Command your own models!

Imagine a funky robot that can find its way around your room, do your homework or acts as a burglar alarm? Anything's possible as long as you have the Robotics Invention System, a PC, and a vivid imagination.

### 1. BUILD

To see your ideas come to life, combine the RCX™ microcomputer with some or all of the 700+ LEGO® elements, motors, touch sensors, and light sensor that make up the Robotics Invention System set. The RCX is a programmable microcomputer that acts as the brain of your robotic invention.

### 2. PROGRAM

Use your PC, the Robotics Invention System 2.0 software, and the RCX to create programs that control your robot's behaviour. The new, easier-to-use programming language contains "Big Block" commands such as "Forward" and "Turn Left" to get you up and running quickly. Additional features such as control editors, branches, and variables, allow for more advanced programming.

### 3. RUN

Activate your robot and it takes on a life of its own!

**9731  
Vision Command.**  
From 9 years.

The enclosed CD ROM has loads of brilliant ideas for you. And if you've got a Robotics Invention System, you can even create robots that see!

Vision Command is an awesome video camera that can be programmed to respond to movement, colour and light. Use it for everything from a surveillance camera to a music synthesizer or send video e-mails to your friends!

## ULTIMATE BUILDERS SET

Available in the shops  
Combined with your Robotics Inventions System this is a cool set with loads of possibilities. Use the CD-ROM, the additional motor, pneumatics, the awesome wheels, and 300 other LEGO pieces to come up with new, more challenging robots. And don't forget to visit the dedicated special Ultimate Builders Set community at [www.mindstorms.com](http://www.mindstorms.com)  
**3800 Ultimate Builders Set.**  
From 12 years.

**LEGO.COM**  
[www.LEGOmindstorms.com](http://www.LEGOmindstorms.com)

## ONLY AVAILABLE ON THE INTERNET Robotics Invention System 2.0 Upgrade Kit

With the new CD ROM you can upgrade your set to do all the cool things you can do with the Robotics Invention System 2.0. Includes 6 new Pro Challenges that enables you to build advanced Robots. New RCX Code with a lot of expanded programming features allows you to take your robotics inventions even further.

**LEGO MINDSTORMS ON THE WEB**

## BIONICLE

## SCALA

LEGO® Cargo was designed to meet the grown-ups' rational requirements as to functional clothes, strength and non-toxic materials – and then children were asked to help us develop all the innovative, creative features. The result is plenty of fun, excellent functionality, and top quality in every LEGO Cargo bag.

APPROVED  
BY CHILDREN

Children are, well, children: concentrated energy, adventurousness, and high spirits. It's a dynamic cocktail that requires more than a little elbow room and demands a great deal from the clothes they wear. All day, every day. That's why LEGO Wear is created as fun, functional, and comfortable designer clothes fashioned in a robust quality that doesn't stop when the going gets tough.

# RACERS

## Drome Racers Wanted

Have you got what it takes?  
Discover new skills and new thrills,  
racing in rough terrain, along forest trails  
or on high-speed race circuits.  
Get ready to go further ... faster ...  
Get ready for Drome Racing.

(see pages 51-55)

Or how about virtual racing  
in LEGOLAND® Windsor?  
Design the car, create the  
driver, RACE!!!

(see pages 72-73)
