Qualigut[®]

Phytogenic gut health improver for better poultry production

Powered by essential oil

Natural product with garlicin and curcumin

In the terms of poultry gut health, plant-based essential oils have been shown to have gut-positive, antioxidant, and immunomodulatory effects, which may contribute to improved intestinal health in poultry.

Combination of several essential oils improves intestinal morphology, increases the expression of genes associated with gut barrier function, and reduces the levels of harmful bacteria in the gut. Another study showed that adding a blend of essential oils from cinnamon, thyme, and oregano to the diet of chicken resulted in improved gut health, as evidenced by reduced intestinal inflammation and improved immune function

key benefits

- Controls the growth and multiplication of gut pathogens
- Improves growth and gut functions
- Improves appetite, feed intake and digestion
- Improves FCR, performance and liveability
- Improves immunity
- Improves meat flavour and reduces meat cholesterol
- Improves intestinal villi health and thereby improves the nutrient absorption

Major ingredients

Cinnamon oil	Barbaris extracts
Improves gut health	As a supportive to improve the gut health
Capsicum oil	Camphor oil
Improves gut morphology	Favors the growth of intestinal epithelium

Inclusion

Chicks and grower :1-2mL/L of water
Finisher Broiler and Layers :2-3mL/ L of water
Breeder :2-3mL/L of water

Shelf life

2 years from the month of manufacturing

Storage condition

Keep in cool & dark place. Keep away from direct sunlight

Presentation

200mL, 500mL & 1L bottle

Manufactured by

Animaxius

220, 1st floor, City mall, New Link Road,
Andheri (West), Mumbai-400053, India

Marketed by

Elite Agro Science

DLS NO. 1159
East Bashabo, Sabujbagh, Dhaka 1214, Bangladesh,
