Light Smoke Oak

Dark Smoke Oak

Ash 52c

PPC wall panels are widely used in commercial spaces, such as meeting rooms and workspaces, due to their sound absorption properties and elegant appearance. This ensures that people in adjacent areas are not disturbed by conversations taking place. This is particularly beneficial when working and wanting to be free from external noise.

- **Slat Thickness: 11m**
- **Slat Width: 27mm**
- **Felt Thickness: 9mm**
- **Distance between slats: 13mm**

OPTIMAL SOUND SOLUTION

An acoustic wall panel helps minimize echo in your home. These wall panels are not only sound-absorbing but also serve as stunning wall decorations due to their calming appearance. With acoustic wall panels, your living space is better insulated against noise, resulting in improved acoustics. Wooden wall panels prevent sound distortion and reflection, significantly reducing noise and eliminating hollow sounds in the room. Choose acoustic wall panels to enhance your interior design while ensuring a serene and tranquil environment.

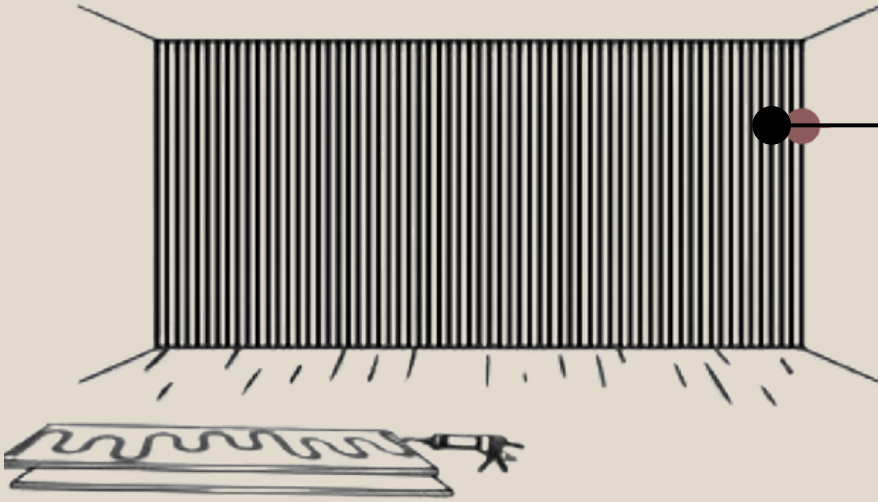

DARK SMOKE ACOUSTIC PANEL

- **Dimensions: 240cm x 60cm**
- **Panel Thickness: 22mm**
- **Slat Thickness: 11mm**
- **Slat Width: 27mm**
- **Felt Thickness: 9mm**
- **Distance between slats: 13mm**

SUSTAINABLE

An Eco-Friendly Solution for Interior Design PPC's range not only offers aesthetic beauty and excellent acoustic dampening but also prioritizes the use of eco-friendly materials. All materials used in our acoustic wall panels are sourced and produced from certified sustainable resources, making our Aku panels a fully environmentally friendly product. Choose PPC for a responsible, green solution in your interior design projects.

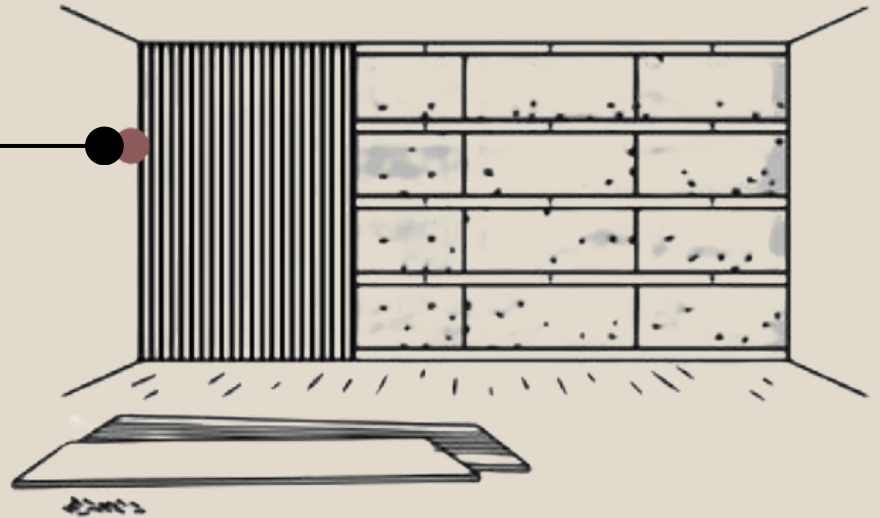

MOUNTING WITH TACK ADHESIVE

If you need high tack adhesive for the installation of the PPC Panels, you can purchase it from us.

MOUNTING WITH SCREWS

Tip: Use screws in the same color as the felt. We recommend using plasterboard screws with a minimum diameter of 4.8mm and a length of 32mm

EASY INSTALLATION

With acoustic wall panels, you can create a beautiful wooden wall while minimizing sound. The wall panels are fully self-installable by following the provided instructions. The panels can be mounted using screws or by gluing with our high tack adhesive.
