MINI  
WINDCOVERS**

SUMMER 2024

# FUR MINI WINDCOVERS

NEW

We have designed a range of Mini windcovers that covers a wide range of popular branded microphones and portable recorders. Each comes with an internal foam, silicone coated elastic to hold tight to the microphones and black multiple fur. Each has been designed to make sure it can swap from A/B to X/Y set ups (for necessary portable recorders).

We supply Fur Mini Windcovers for Zoom, Rode, Tascam and Sony.

New Products Highlighted in **BLUE**

# FEATURES

## **FOAM & ELASTIC FUR MINI WINDCOVERS: Featured in Sony, Tascam & Zoom Products**

These windcovers have an internal layer of acoustic foam sewn inside so they maintain their shape and create a pocket of 'dead air space' around the microphones.

Attached to the foam is a non-slip elastic that allows the windcovers to safely and securely stay in place when using.

Each have been carefully designed to ensure maximum space for different microphone configurations such as X/Y & A/B.

## **BLUE LINED FUR MINI WINDCOVERS: Featured in RODE products**

The Fur Mini Windcovers designed for the RODE product range have been designed to fit over the provided foam that comes with each product.

Lined with our acoustically transparent blue lining, this allows ease when putting on and off.

Our premium multi-pile fur gives the additional wind protection for on-camera microphones, without getting in shot of a camera lens.

# ADDITIONAL NOTES

---

- If your customer can't find the correct Fur Mini Windcover, please let us know. We may have already made a pattern (from a custom order), but not released to our Price List. If we don't have the windcover available, we also offer custom orders.
  - RODE Video Micro comes with an additional 5cm 19/22 Foam.
  - RODE Videomic Pro + attaches at the back with additional 'Snap-fasteners'. This allows the customer to be able to use the buttons & AUX port comfortably.
  - Zoom H3-VR is the only Zoom fur windcover that has a blue lining and no internal foam. This is designed to go over the foam provided with the recorder.
- 

## FAQ

### **Do you sell the new Zoom Essential range?**

Yes, we sell a Fur windcover for the H1 Essential, H4 Essential & H6 Essential.

### **Can I swap from X/Y to A/B when using the Tascam X8 Mini Windcover?**

Yes. We've made sure that every windcover that offers a switchable configuration is able to do both, without compromising on 'dead air space'.

### **Does the windcover muffle the sound?**

There is always a risk when using fur windcovers that it will impact the HF performance. However, from testing and customer feedback - when using this product it has helped combat wind noise in windy conditions.
