Market Interest

- Chinese reseller already interested during an economic mission in April.
- Interest from African, Indian markets, and pilot schools seeking this turbine helicopter

International Projects

Collaborating in China on innovative helicopter development initiatives.

The History of the Winner Helicopter

The Winner Helicopter was originally an American kit helicopter. The eponymous company, Winner, acquired it with the goal of transforming it into a superior product. Today, the Winner is a fully-developed, safe, and reliable turbine helicopter, powered by the market-leading PBS TS100 turboshaft engine.

Wise Eagle Presents

T300 & T250 - Winner Turbine Helicopters

Investment Overview

- €11.8M for transferring the 2-seat model to China (includes certification, knowledge transfer, and rights).
- €200M sales deal for 200 Winner Helicopters with a Chinese company.
- Timeline: 1.5 years for engineering and knowledge transfer, plus an additional 1.5 years for EASA certification.

Builder: Winner SCS, Belgium

Contact: Caroline Allard Doucet, International Sales

caroline@dhewiseeagle.com

Pricing (price may vary)

- Kit: €232,500
- Ready to Fly: €245,000

Warning: These prices do not include transportation costs, taxes, insurance and any other fees. All technical data and prices included in this brochure may be modified at any time. They are only given as an indication.

Timeline

- 1.5 years for engineering and knowledge transfer
- Additional 1.5 years for EASA certification

Main Features & Certification

The Winner T250 and T300 helicopters feature CNSK certification, equivalent to CDNR certification. This ensures compliance with restricted airworthiness standards (CS-VLR and CS-27).

2-seat 3-rotor blades PBS TS100 Turboshaft

- Take-off weight: 700 kg (France), 750 kg (UK/Canada), up to 1200 kg in other regions.
- Requirements: Private Pilot License (PPLH) is mandatory.

TS100 Turboshaft

The TS100 turbine is a compact and efficient system with two modules: a gas generator and a free turbine. It is equipped with an autonomous oil system and digital control unit.

Recognized Advantages and Qualities of the T250

- Unique in its class: The only 2-seat helicopter with 3-rotor blades and a turbine engine.
- High demand and ready for market implementation.
- Potential to become a leader in its category.
- Fuel: JET A, JET A1
- Oil: MOBIL JET OIL II
- Inspection: Every 50 flight hours
- Overhaul: 2,000 flight hours

The helicopters can be used for various purposes such as cargo lifting, pipeline monitoring, and border surveillance, depending on regional regulations.

Options

- Two-blade semi-rigid rotor
- Advanced avionics and EFIS systems
- VHF radio and transponder
- Air conditioning, tinted windows, and custom-painted fuselage

Technical Characteristics | Dimensions

Total overall length: 8.88 m

Total height: 2.68 m

Main rotor diameter: 7.74 m

Main rotor chord: 0.18 m

Anti-torque rotor diameter: 1.10 m

Anti-torque rotor chord: 0.10 m

Skids width: 1.99 m

Interior cabin width: 1.28 m

Main rotor direction (from above): Right

Anti-torque rotor direction (from left): Right

- Power reserve and cabin comfort for large pilots.
- Dual control (removable on the passenger side).
- Flight stability and reduced noise.
- 40% lower cost per flight hour compared to competitors.
- Low-cost maintenance and increased safety.

Performance

- Max speed: 192 km/h
- Cruise speed: 160 km/h
- Fuel consumption: 50 L/h
- Ceiling service: 6000 m
- Max power: 250 hp

Wise Eagle Customer Services

As a member of Wise Eagle, Winner benefits from extensive support services, including:

- Operations on the T250
- Aviation personnel training
- Spare parts supply and repair
- Customized helicopter delivery
- Flight licensing and safety courses

A Word From the Founder

“When it comes time to choose, you want to make a decision that reflects your alignment—you want to be ‘in the flow.’ As you relax into it, you’ll notice that the journey becomes enjoyable. Everything you’ve ever wanted is within easy reach.

Now we understand that life is about living, not about acquiring; it’s about the journey, not the destination. Life is about who you are. The eternal genius within you seeks the best out of life.

Now that you know how to enjoy the journey that leads you to all the wonderful places in life, the flow will guide you to the perfect rendezvous, ensuring you have a truly good time.”

Caroline Allard Doucet, Founding Member
