Technical Skills

- Programming:** JavaScript (ES6+), Java, C++, ReactJS, AngularJS, Node.js, Spring Boot, Express.js, NextJS, React Native
- Databases & Cloud:** MySQL, MongoDB, AWS (EC2, Lambda, S3), Docker, Kubernetes
- Tools & Design:** Git, Prometheus, Datadog, Chrome Extensions API, UI/UX, Responsive Design, Figma

Professional Experience

WalletGyde

Denver, USA

Full-Stack Web Developer

12/2024 – Present

- Developing **landing pages** and **main beta website** using **Next.js, Node.js, and Supabase** for a responsive and scalable platform.
- Built **RESTful APIs** for authentication, data management, and third-party integrations, ensuring secure transactions and analytics.
- Enhanced **UI/UX and landing pages**, improving SEO, page speed, and mobile responsiveness for better user engagement.

Cognizant Technology Solutions

Hyderabad, India

Full-Stack Developer

03/2021 – 04/2024

- Enhanced the **Angular-based frontend** of the **Agile Retrospective Tool**, improving **UI/UX with responsive design, reusable components, and structured folder organization** for better maintainability.
- Optimized SPA routing and service-based API integrations**, reducing **page load times by 30%** and improving application responsiveness.
- Developed **Spring Boot microservices**, following **MVC architecture**, enabling efficient **backend API handling and seamless frontend integration**.
- Integrated **Azure DevOps APIs** to fetch **scrum details (user stories, backlog, tasks)**, ensuring seamless sprint tracking across **Azure and Cognizant's Agile tool**.
- Deployed the system on **AWS**, ensuring **scalability, high availability, and secure deployment** for optimal performance.
- Built a **full-featured E-Commerce platform** during the **training period** using **MERN stack**, including **authentication, shopping cart, and order management**.
- Integrated **PayPal API** for **secure payments** and used **MongoDB** for efficient **product and order data management**.

Tarushi Software Solutions

Hyderabad, India

Web Development Intern

05/2019 – 07/2020

- Contributed to **Make a Receipt** app using **React Native & Firebase**, enhancing digital receipt management.
- Built scalable features supporting **5,000+ users** for seamless transactions.

Key Projects

- WeatherWise - Real-Time Weather Tracking Application:** Developed a dynamic weather app with geolocation-based forecasts and interactive maps using **Leaflet.js**, improving API response times by 10%.
- JobFinder - Job Search Platform:** Created a job portal integrating **Adzuna API** for real-time listings, improving search relevance by 25% through advanced filtering capabilities.
- E-Commerce Platform (MERN Stack)** - Developed a full-featured shopping platform with secure payments, and product reviews. Integrated **PayPal API** for payment processing and **MongoDB** for robust data management.

Open-Source Contributions

- PixelPeek** - Created a Chrome extension for real-time media dimension analysis, ensuring privacy by processing all data locally. Recognized for its utility among developers and designers.
- Digital Cartography Contributor** - Enhanced Google Maps by adding and editing places, sharing reviews, and contributing multimedia content, improving navigation accuracy and user experience.
