

SILENT TEARS

Ummu Mariam Minha

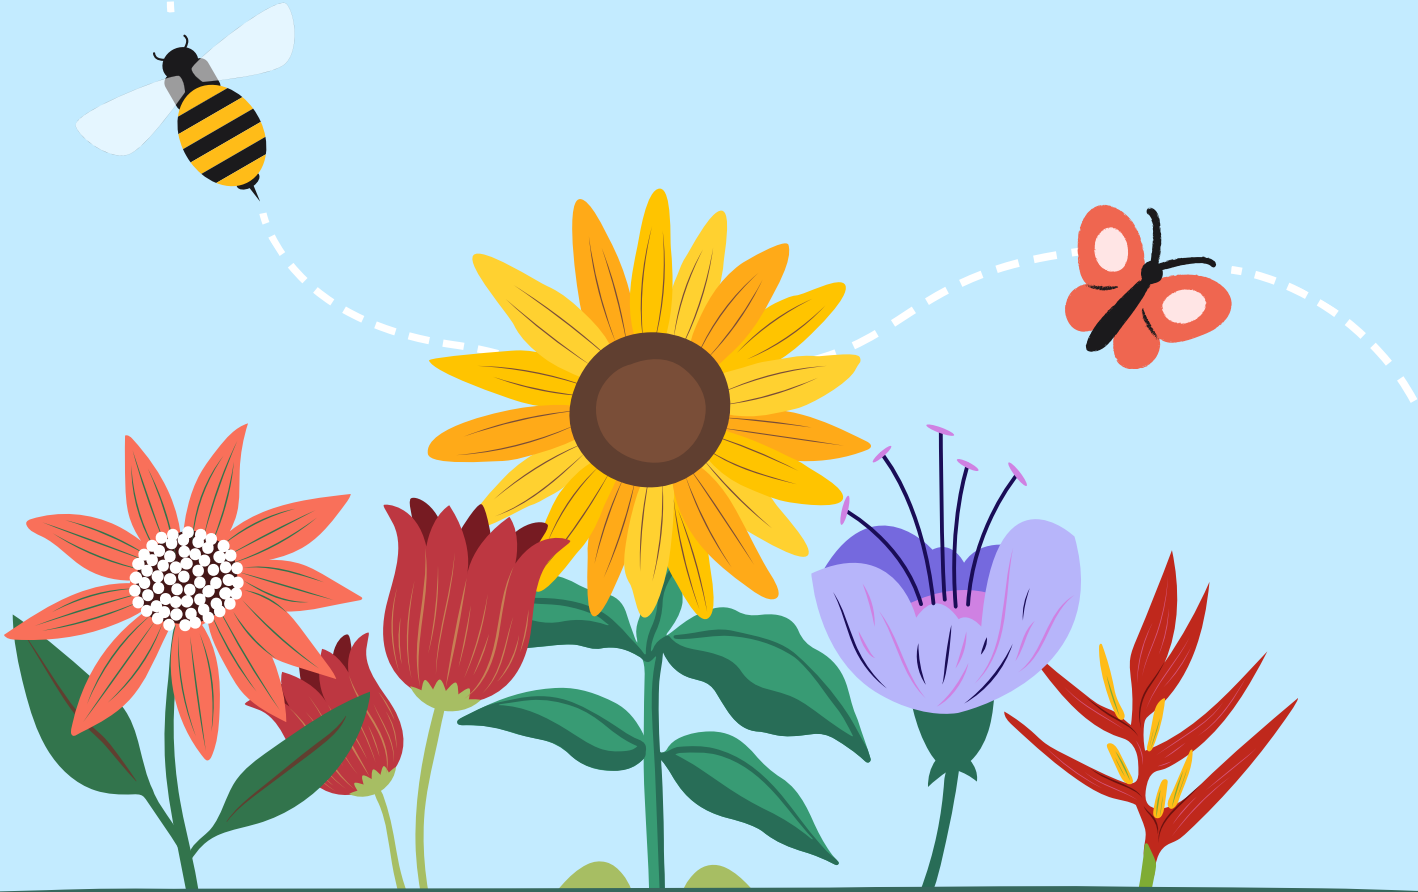

Mariam was excited.

Today, she is visiting the garden near our home.

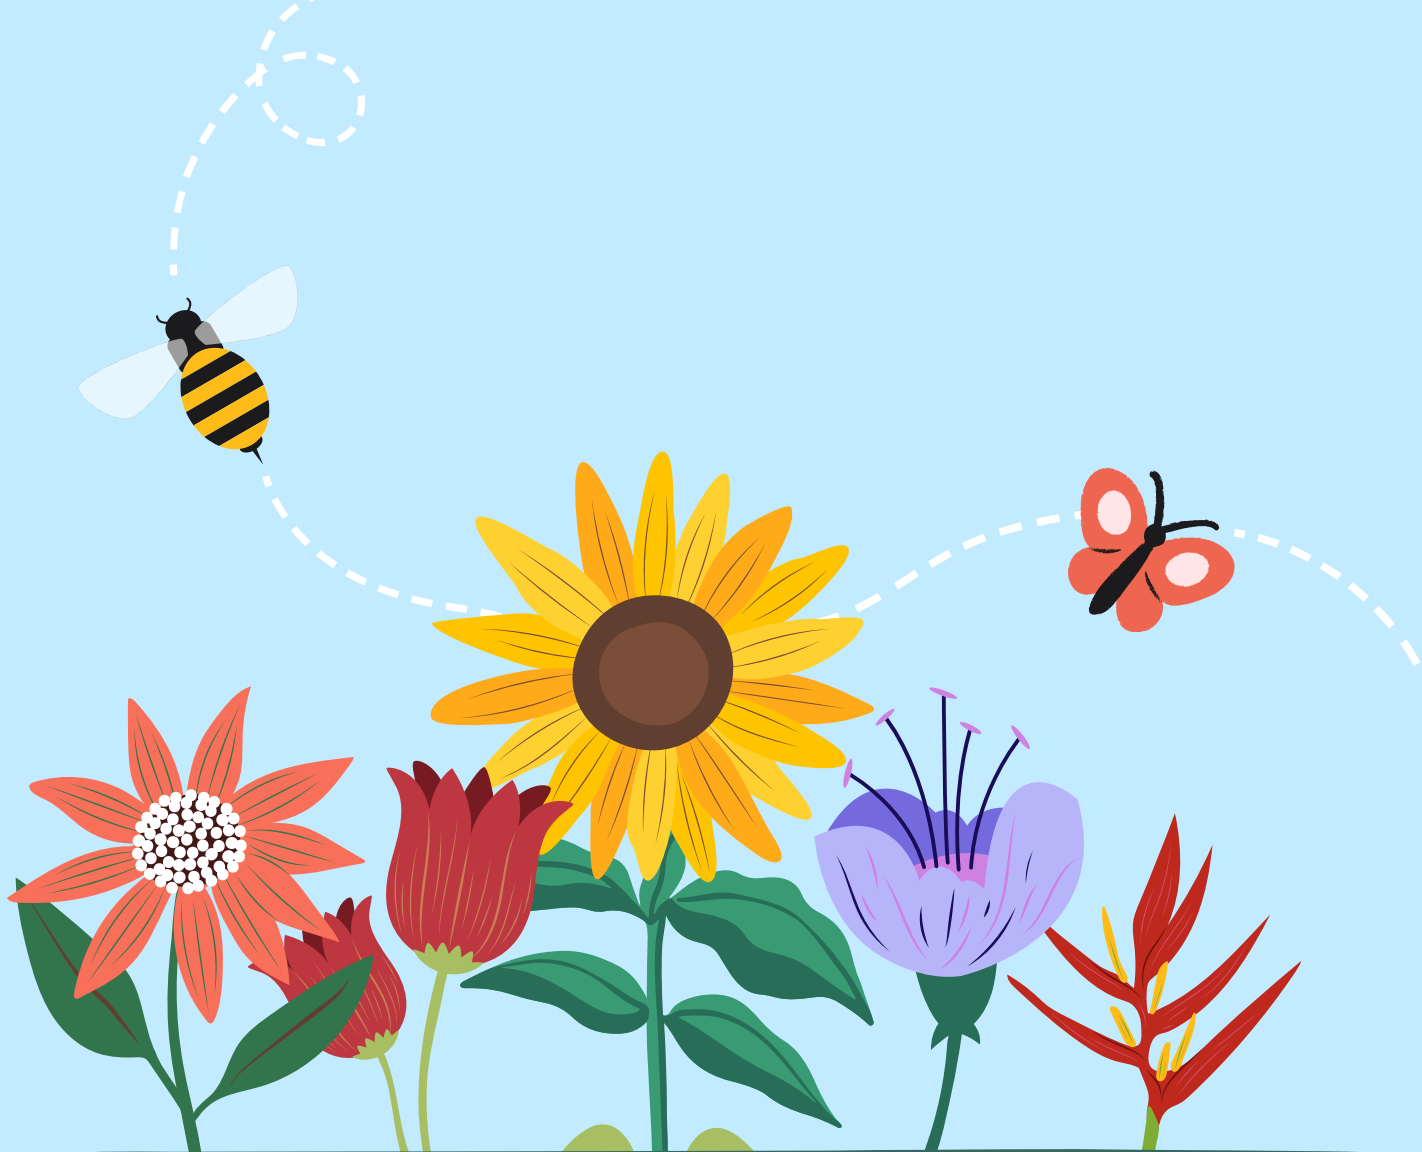

This means, she is visiting the plants that she has read and saw in the books so far.

Beautiful flowers with fresh aroma . The
flowers were dancing as the air flows.
What a pleasant surprise it is to see these
beautiful creation of Allah.

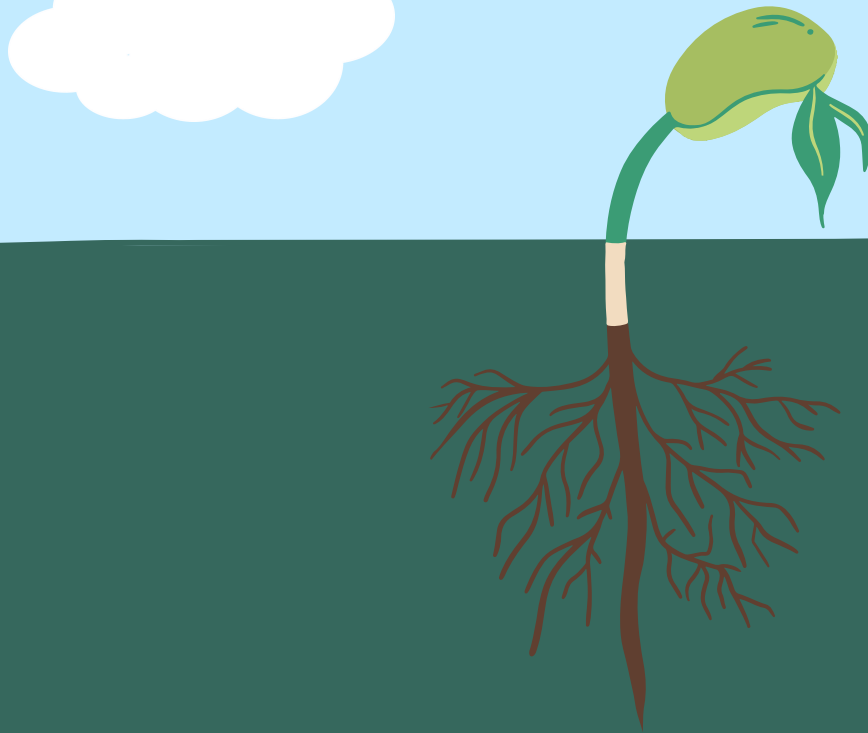

Bees and butterflies fluttered
from one flower to the next.

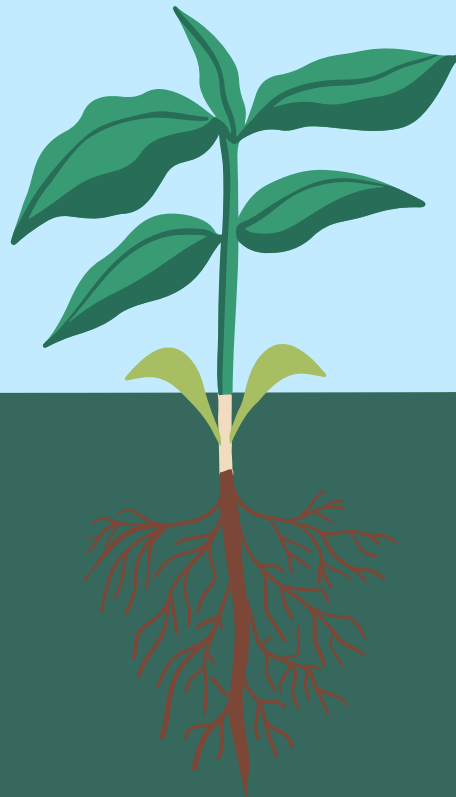

Say
Ma Sha Allah

Look here is a
seed that is
germinating.

This seed has grown
into a plant.
Ma sha Allah.

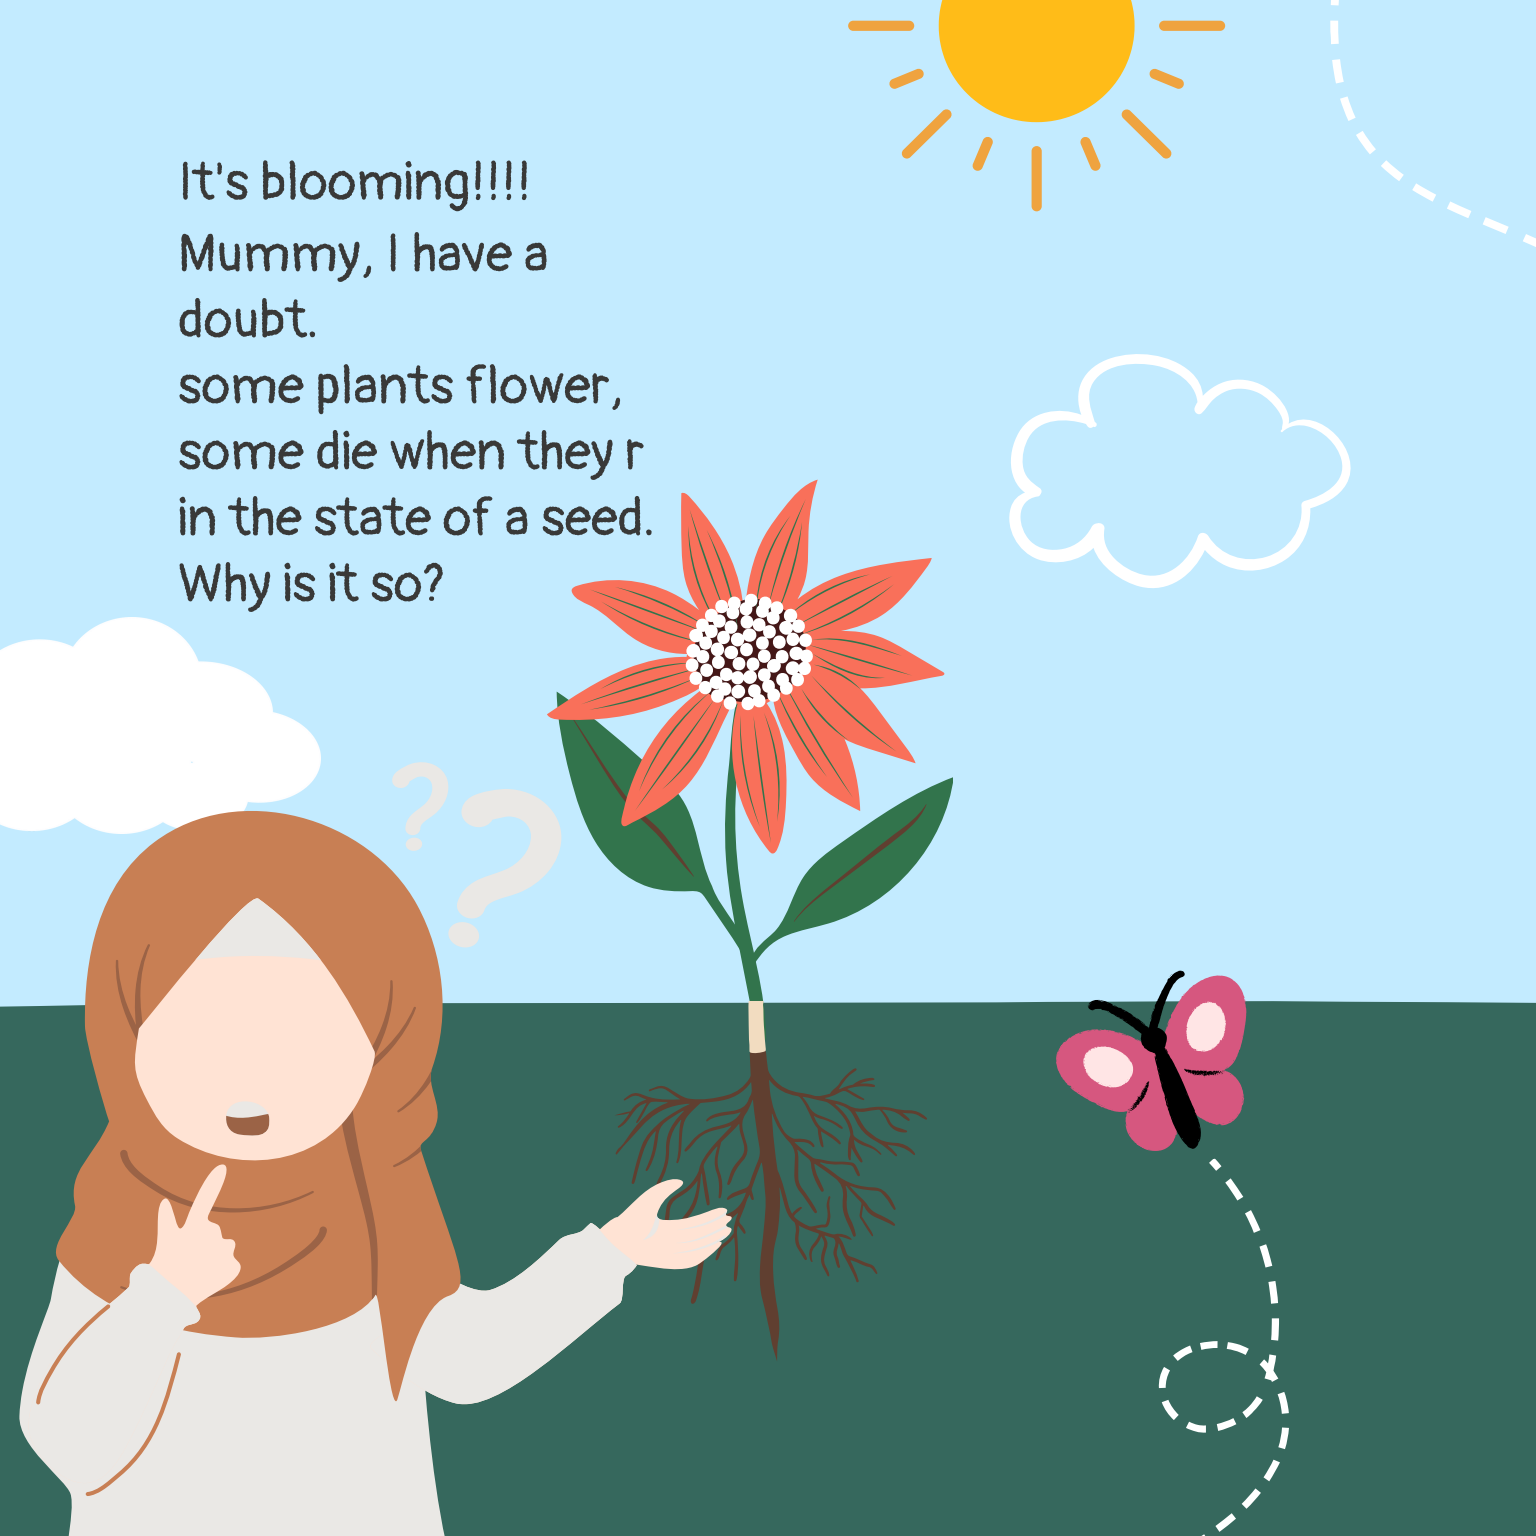

It's blooming!!!!

Mummy, I have a
doubt.

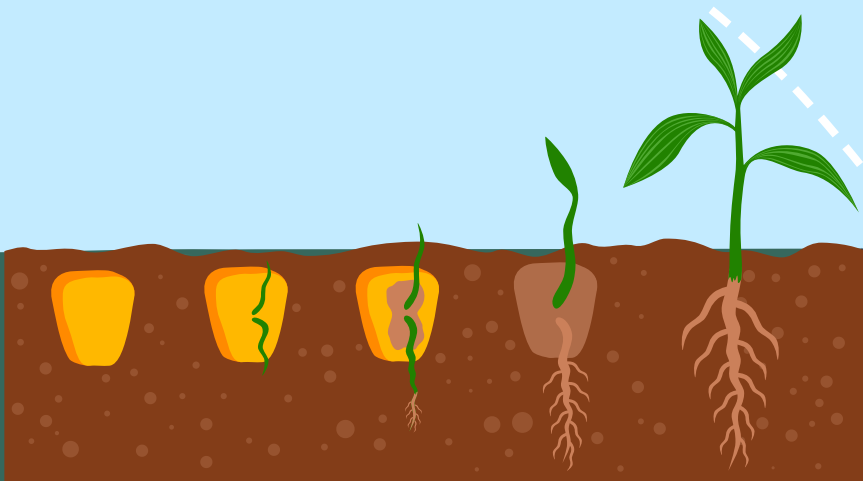

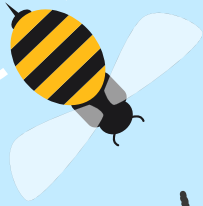

some plants flower,
some die when they r
in the state of a seed.

Why is it so?

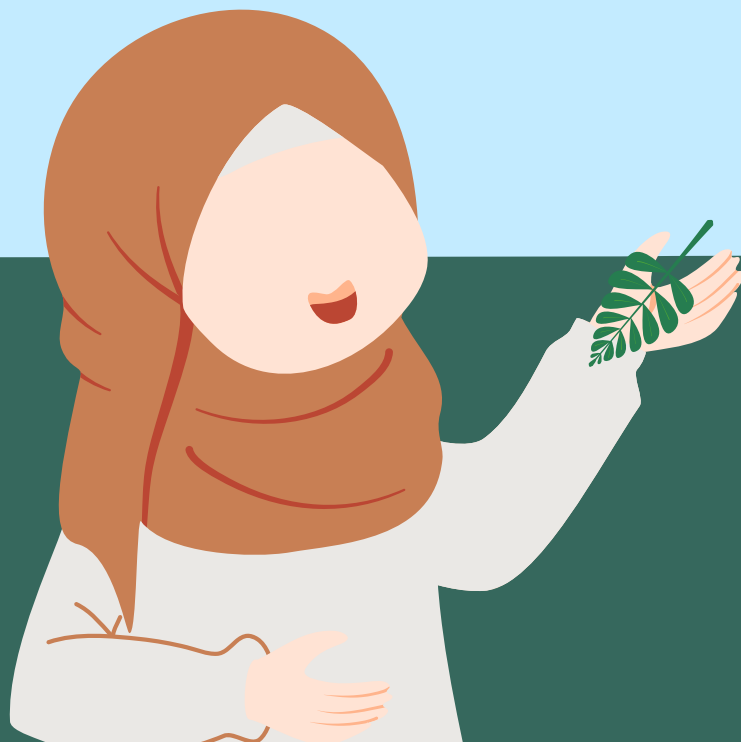

Al - Qadeer

Al-Qadeer (the Powerful),
Whose power is perfect. By His
power He created all things
that exist, by His power He is
controlling all things and by
His power

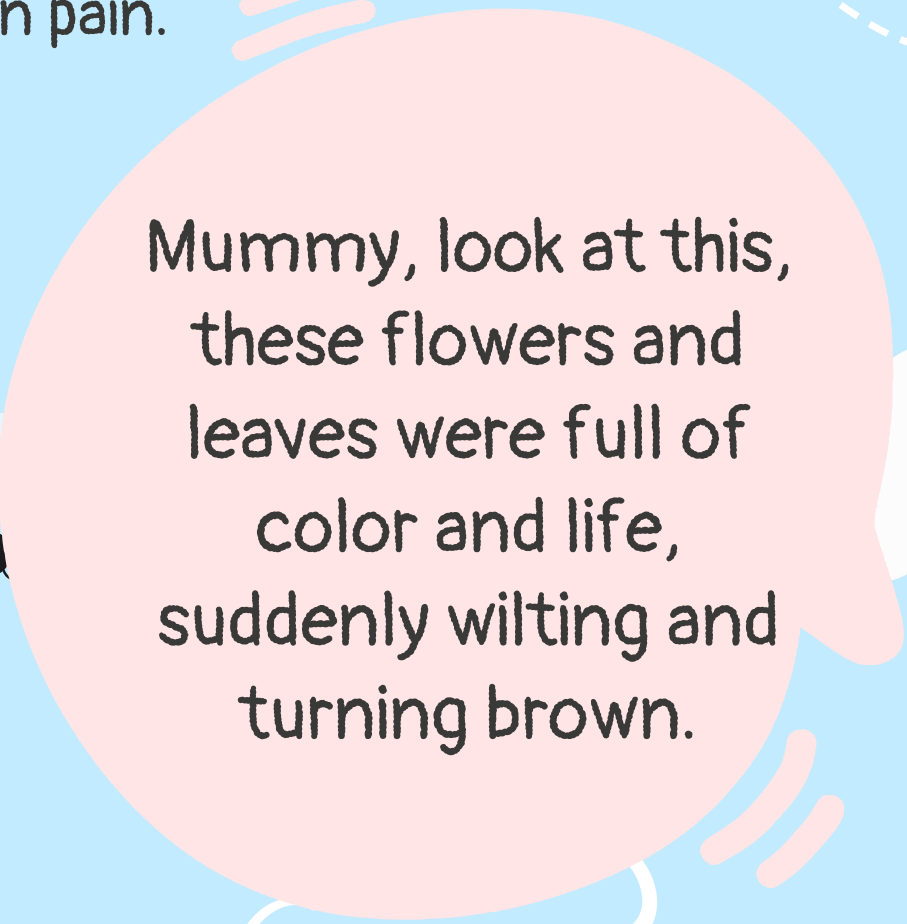

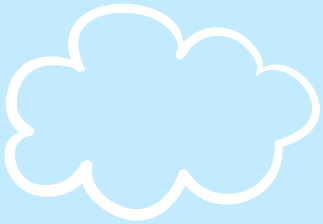

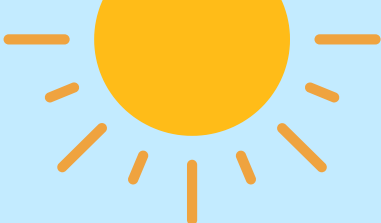

Allahu
Akbar

Said the mom

Plants feel the pain like
humans and animals. They die
once they are out of their
tree or plant.

Research by University
of Bonn in Germany
states, plants release
gases that are the
equivalent of crying out
in pain.

Mummy, look at this,
these flowers and
leaves were full of
color and life,
suddenly wilting and
turning brown.

No problem dear Mariam,
the plant will grow In sha
Allah. You must be
conscious from now on!

You are right
mummy, I feel sorry
for this leaf.

We humans make mistakes but Allah
is oft forgiving. Lets make a dua!

رَبَّنَا ظَلَمْنَا أَنْفُسَنَا وَإِنْ لَمْ تَغْفِرْ لَنَا وَتَرْحَمْنَا
لَنَكُونَنَّ مِنَ الْخَاسِرِينَ

Our Lord, we have wronged
ourselves, and if You do not forgive
us and have mercy upon us, we will
surely be among the losers.

Barakallahu
feeki
mariam

Jazakallahu
Khairan mummy!
