HUB/24

**innovation
in a sole**

The HUB/24 sole is built with a special two-layer technique providing ultimate comfort. The insole with gel parts is shock-absorbent and provides support, while the outsole is made of vulcanized material that is lightweight and durable. The thin rubber layers at the front and back of the outsole provide even more resistance and stability. Thanks to its streamlined and well-contoured design, the HUB/24 sole gives support to the whole foot, while making your movement more stable and fluent. In short, HUB/24 is an innovative concept that captures the technical and qualities of a sports/running shoe within such a delicate and casual footprint.

HUB/24

HUB/24 is a highly innovative sneaker sole that is designed to give your feet all the support and comfort they need. Where most sneakers make your feet feel sore after a long walk in the city, the HUB/24 enables you to continue, 24 hours a day.

Sport en topsport
Sportliefhebbers zijn bij ISW Gasthuislaan helemaal op hun plek. We organiseren regelmatig sporttoernooien, we doen mee aan buitenschoolse toernooien en we hebben zelfs een eigen fitnessruimte waar je (vanaf klas 4) onder begeleiding kunt komen sporten. In de bovenbouw kun je bij ons het vak Bewegen, Sport en Maatschappij kiezen. Doe jij een sport, op topniveau? Wij zorgen ervoor dat jij je sportcarrière goed met school kunt combineren. Samen met jou en je ouders stippelt onze topsport-coördinator een persoonlijk plan voor je uit.

Hoogbegaafd
Ook goed om te weten: wanneer je hoogbegaafd bent, kun je op onze school rekenen op extra aandacht en extra uitdagingen. We hebben voldoende expertise in huis om je bij te staan.

Kunst en cultuur
Bij ISW Gasthuislaan besteden we veel aandacht aan kunst en cultuur. We organiseren dansdagen en concerten en we bezoeken regelmatig musicals, films en voorstellingen. Hou jij van dans en muziek? We werken samen met het Scapino Ballet en het Rotterdamse Hellendal Vioolinstituut en kunnen je daardoor professionele dans- en vioollessen aanbieden. We hebben ons eigen productiehuis 'Play Now' waarbij onze school samenwerkt met Westlandse cultuurorganisaties Koperen Kees en Muziekmeesters.

Suïcideem 2009-2011

Periode van zelfdestructivisme

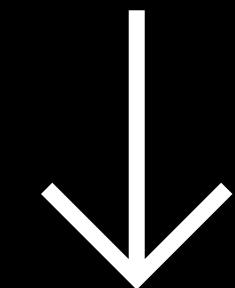

In het begin van het Suïcideem leek het beloofde land bereikt. De beesten hadden een nieuwe luchtaandrijving gekregen, die veel hoop bood. De ongelijke grond van het strand en het mulle zand waren evenwel funest voor ze. De poten kwamen onder grote spanning te staan, waardoor de timing van de verschillende krukken onnauwkeurig werd. Met hun dikke ongecoördineerde aan-

The self-destructive period

At the beginning of the Suïcideem, I seemed to have arrived at the promised land. The animals had acquired a new air propulsion system which gave reason to be hopeful. The uneven surface of the beach and the loose sand were nonetheless disastrous for them. The legs were subjected to great pressure which disrupted the timing of the crutches. With their fat,
