

Trio Exome May/June 2026 Offer – Terms and Conditions

Eligibility

This offer is available where:

- The patient is not eligible for Medicare Benefits Schedule (MBS) item 73359; and
- Diagnostic trio exome sequencing is requested by a specialist medical practitioner.

Tests included in the offer

This offer applies to:

- Diagnostic trio exome sequencing;
- Optional Expanded Carrier Screen for one or both parents; and
- Optional Personal Genetic Screen for one or both parents.

The optional parental screens are only available under this offer where diagnostic trio exome sequencing is requested and performed.

Billing

- Trio exome sequencing, with or without optional parental screens, will be billed to the nominated patient or healthcare organisation at \$1800.
- This price applies per trio exome family.

Sample receipt deadline

- To access this offer, all required samples must be received by Preciselee's laboratory on or before 30 June 2026
- The date of receipt will be determined by the laboratory's internal sample accessioning system.
- Reports will be issued within 8 weeks of commencement of testing, subject to sample quality, receipt of all required information, and any unforeseen laboratory contingencies.

Offer limit

This offer is limited to the first 30 trio exome families requested under this offer.

General considerations

- This offer applies only to the individual patient/family whose samples have been submitted.
- This offer cannot be transferred, combined with another offer, or applied retrospectively.
- Preciselee may modify or withdraw this offer at any time before 29 May 2026. Any change will not affect samples that have already been received and accessioned under the offer.
- This offer does not guarantee a diagnosis, clinical utility, clinical benefit, or any particular result.
- Submission of samples under this offer constitutes acceptance of these Terms and Conditions.
