

Full Contour Zirconia

Digital Smile
Innovations

Delivering Excellence, One Smile at a Time

Advanced Dental Restorations for Every Patient Need

At Digital Smile Innovations, we combine cutting-edge materials with expert craftsmanship to deliver premium dental restorations. Elevate your practice with solutions designed for durability, beauty, and precision.

Full Contour Zirconia Restorations

- **Strength That Lasts:** Engineered for high-stress areas, Full-Contour Zirconia restorations provide exceptional durability and resistance to chipping or cracking.
- **Natural Appearance:** Advanced staining and glazing techniques mimic the look of natural teeth, making them ideal for posterior applications.
- **Customizable Occlusion:** Our technicians design each restoration to provide optimal function and comfort, ensuring a perfect fit for every patient.
- **Ideal for Bruxers:** This option is perfect for patients with heavy bite forces or grinding habits. It offers superior wear resistance for both the crown and opposing dentition.

Ultra Translucent Zirconia Restorations

- **Next-Level Aesthetics:** Ultra-Translucent Zirconia combines the strength of traditional Zirconia with the beauty of all ceramic materials, ideal for anterior and highly visible areas.
- **Lifelike Translucency:** Closely mimics natural enamel, providing stunning aesthetics without compromising durability.
- **Wide Range of Indications:** Suitable for crowns, veneers, inlays, on-lays, and small bridges, balancing strength and beauty in one versatile material.
- **Patient-Friendly Solution:** Bio-Compatible, metal-free, Ultra-Translucent Zirconia ensures patient safety and comfort.

Porcelain Fused to Zirconia (PFZ) Restorations

- **Aesthetics Meets Strength:** PFZ restorations combine the high flexural strength of Zirconia with the natural beauty of layered porcelain.
- **Metal-Free Substructure:** Unlike traditional PFMs, PFZ eliminates metal, ensuring no gray margins or opacity, even in challenging cases with thin soft tissues.
- **Versatile Applications:** Ideal for anterior crowns, bridges, and any restoration where superior aesthetics and durability are required.
- **Precision Marginal Fit:** Designed with state-of-the-art CAD/CAM technology to ensure an exceptional fit and reduce chairside adjustments.

Why Choose Digital Smile Innovations?

- **Unmatched Craftsmanship:** Each restoration is created by skilled technicians using advanced materials and techniques.
- **Efficient Turnaround Times:** Our streamlined workflows ensure you receive your cases on time without compromising quality.
- **Tailored Solutions:** We collaborate with you to meet the specific needs of your patients, ensuring satisfaction every time.
- **Reliable Support:** From case planning to troubleshooting, our team is here to assist you every step of the way.
