Topsport program

CORPORATE

Performance meets Business

Our Topsport Programme bridges the gap between high performance and successful careers, connecting corporate ambition with athletic excellence.

The program brings proven performers into established businesses, providing our partners with resilient talent, stronger teams, and a clear story for brand impact and investments in the community - through every hour worked.

**** The result - resilient talent, stronger teams, and visible brand and community impact with every hour worked.**

Why Partner With Our Athletes?

The Topsport Programme connects employers with elite athletes who bring a winning mindset, resilience, and performance under pressure - built through years of dedication in sport.

Discipline and Drive

Athletes set clear goals, adapt when plans change, and deliver consistent results - habits that translate into business success.

Teamwork Excellence

From the training ground to match day, athletes practice collaboration, precise communication, and shared accountability - the foundations of strong teams.

Adaptable Talent

Our Elite athletes are used to change - new teams, new goals, new pressures.

They bring that same flexibility and focus to every role, adapting fast whether balancing sport with work or stepping into a full-time career after sport.

Building Futures: Supporting Athletes On and Off the Field

Support Athletes' Journeys, From Elite Performance to Professional Transition

The Topsport Programme supports athletes at every stage.

We help current elite athletes gain professional experience alongside training, and post-sport athletes with corporate careers that match their skills and ambition.

For every hour an athlete works, we invest back into their club - funding coaching, equipment, and performance programmes that develop the next generation.

Your partnership strengthens your workforce today and builds stronger sporting communities for tomorrow.

Access Talent Shaped by Elite Sport

Flexible Scheduling

Access motivated talent through part-time or project-based roles that fit business needs year-round.

Career Development

Gain employees with built-in growth mindsets who upskill fast and bring long-term value to the organisation.

Mutual Success

Build stronger teams and a credible employer brand while contributing to athlete career development and community impact.

Become a Corporate Partner Today

1

Connect With Us

Share your talent needs and discover how elite and post-sport athletes can strengthen your team.
