ABOUT THE FORUM

The AI for Social Transformation Forum 2026 is a two-day knowledge and collaboration platform bringing together academia, industry, startups, policymakers, CSR leaders, and civil society organisations to explore ethical, inclusive, and scalable AI solutions for India's development priorities.

FOCUSED THEMATIC AREAS

Anchored in the theme “**Social Impact of Artificial Intelligence: Building Responsible AI Solutions for India,**” the forum explores how technology can be applied ethically and effectively to address priority social challenges and strengthen inclusive development systems.

AI IN EDUCATION AND SKILL DEVELOPMENT

Discussion and innovation to explore AI-driven approaches for digital inclusion, cyber safety, smart campuses, efficient service delivery, and workforce readiness.

AI IN HEALTHCARE AND PUBLIC HEALTH

Integrates discussion and innovation to explore AI-enabled solutions for early screening, telemedicine support, mental health care, and data-driven health analytics.

AI IN AGRITECH AND RURAL LIVELIHOOD

Focuses on applying AI to strengthen agritech systems and rural economies, with emphasis on crop advisory services, climate-resilient practices, market linkages, and livelihood generation.

WHAT TO EXPECT FROM THE FORUM

The forum brings together diverse stakeholders to explore how technology and innovation can respond to real social challenges. The event combines knowledge exchange, collaborative discussions, and hands-on innovation to move ideas toward practical, implementable solutions for social transformation.

DAY 1 - CONFERENCE AND DIALOGUE

- ▶ Inaugural session and keynote addresses
- ▶ Thematic panel discussions across priority sectors
- ▶ Practitioner and policy insights on implementation
- ▶ Field-based case studies and applied learnings
- ▶ Interactive discussions and cross-sector networking

DAY 2 - IDEATHON & STARTUP SHOWCASE

- ▶ Sector-aligned social problem statements
- ▶ Team-based ideation and solution development
- ▶ Startup Showcase of practical AI solutions for grassroots impact
- ▶ Mentorship and pitch presentations to a jury
- ▶ Pitch presentations before a multi-sector jury
- ▶ Networking with startups, institutions, and partners

VALUE PROPOSITION

The conference provides a structured environment for perspective building and strategic reflection on social transformation. It is designed to support deeper understanding, informed alignment, and shared direction among institutions and practitioners working across sectors.

- ▶ Strategic insights shaping the social transformation discourse
- ▶ Exposure to emerging frameworks and approaches
- ▶ Shared learning across institutions and sectors
- ▶ Space for reflection, alignment, and long-term thinking
- ▶ Collective exploration of priorities and pathways

BRINGING TOGETHER DIVERSIFIED AUDIENCE

The forum convenes diverse stakeholders to address real social challenges through dialogue and hands-on innovation. It brings together 150–200 delegates across both days to develop practical, implementable solutions for social transformation.

University Students
& Research Scholars

Industry Professionals
and CSR Teams

Faculty and Academic
Leaders

Policy Makers and Govt.
Officials

AI Startups and
Technology Innovators

NGO and Grassroots
Organizations

The AI Social Transformation Forum aims to move beyond discussion towards action, innovation, and collaboration. By integrating expert dialogue, student engagement, ideation, and startup showcases, the Forum will contribute meaningfully to India's journey of harnessing AI as a force for inclusive and sustainable development.
