

# LIMESTONE

## Limestone PP1

Class AB tube amplifier

### Performance

This tube amplifier delivers a rich, full-bodied sound with deep bass and crisp, detailed highs. Its balanced design ensures clear and accurate audio reproduction, offering smooth tonal response across all frequencies.

### Craftsmanship

The amplifier showcases a perfect blend of classic craftsmanship and modern design elements. Its chassis is made from 1.5mm stainless steel, ensuring durability and a sleek, polished finish that reflects the timeless elegance of vintage amplifiers.

### Modern control

Equipped with microprocessor-controlled power management, the amplifier features delayed high-voltage activation and capacitor discharge during power-down.

### Unlimited customization

Every Limestone PP1 is unique, crafted to reflect your personal style. Choose from a range of premium materials and colors, allowing you to customize the amplifier's finish to suit your aesthetic preferences while maintaining top-tier performance and quality.

# Technical specifications

**Power output**

45 W per channel

**Input sensitivity**

0.7V RMS for full 45W output

**Frequency response**

30 Hz - 30 kHz (-3dB)

**Output Impedance**

4Ω / 8Ω via WBT connectors

**Total Harmonic Distortion (THD)**

Less than 1% at 1kHz

**Noise/Signal Ratio**

~85 dB (noise ~1mV)

**Dimensions**

25cm (W) x 25cm (H) x 55cm (D)

**Weight**

18 kg

*True Vintage Tone*
