#### Welcome to the Festival Guide

#### A Note from the Founder

Dear Global Students,

I'm so excited to invite you to experience something truly special — the **International Student Week in India**.

As a former participant in **international student festivals across Europe** — including in **Greifswald, Belgrade, and Oslo** — I witnessed how powerful it is when young minds from across the world come together to share ideas, culture, and purpose. That experience shaped me. And now, I want to offer you the same — but this time, **in the heart of India**.

This isn't just a trip. **It's a journey into India's soul.**

You'll stay at a serene eco-resort in **Govardhan**, a sacred town known for the spiritual practice of **parikrama (circumambulation)** — a walk that is said to heal the heart, body, and mind. You'll meet **Brijwasi (locals with deep-rooted simplicity)**, **monks who were once professionals**, and of course, students like you.

I can't wait to welcome you to **India in the most conscious and beautiful way possible.**

Warmly,

**Tarun Goswami**

Founder, ISWII Global
