How to Use the Kalmex Invest Catalogue?

To make navigating our catalogue easier, we have prepared a detailed guide presented in a logical sequence – from the most important principles to practical details.

Catalogue Structure

The catalogue is divided into three main sections:

- Europe
- Asia
- Africa

Within each section you will find countries, which are further divided into regions.

Offers within a given region are presented from the lowest-priced to the highest-priced, making it simple to compare available investment opportunities.

Reference Numbers

Each property is identified by a reference number, which is our internal code. It consists of:

- a hashtag (#),
- 3/4 letters (offer code),
- up to 2 digits (sequential number),
- optionally: "O" and/or "INV".

Example:

#7XYZO INV

Explanation:

- #7XYZ – internal catalogue number (letters + sequential digits).
- O – means the offer is off-plan.
 - Off-plan = a property in the planning stage, under construction, or in different phases of development.
 - Pricing and stage: lowest at the planning stage higher during construction highest after full completion and sale of ready units.
 - If there is no "O", it means the project is completed and ready. Standard delivery time is usually 1–3 months.
- INV – indicates an investment offer, meeting our strict criteria:
 - attractive, developing location,
 - strong potential for value appreciation over time
 - high tourist or business demand,
 - strong resale potential and market liquidity.

How We Work With a Selected Offer

When you are interested in a specific property, simply provide us with its reference number.

Next steps:

1. We arrange an informational meeting with the developer, property owner or coop-

erating agency.

2. During the meeting, you can clarify all doubts and ask detailed questions.

3. Upon request, we organise a site visit and property presentation – either with our participation or directly with the developer/agency.

Other Investment Opportunities

At the beginning of the catalogue, you will also find alternative investment options, starting from just EUR 9,900.

These may include:

- participation in larger projects,
- cooperation as a partner or co-developer.

For these opportunities, we arrange individual meetings with well-established companies that have been active in the market for years, so that you can obtain full details, ask in-depth questions and negotiate conditions.

Purchase Process & Financing

- Each developer provides their own payment plan, negotiated individually during the purchase process.
- In Spain, selected offers allow you to obtain a mortgage loan directly in Spain.
- We also cooperate with trusted local mortgage brokers.
- For each country we prepare informational brochures explaining the purchasing process (steps, taxes, fees, regulations), so you feel secure and well-informed.
- Please note: the catalogue has an illustrative character – once you select an offer, we will provide you with a complete package of detailed materials (floor plans, schedules, payment plans, contracts).

TIMESHARE

Aveallar, Alanya, Turkey

Price from 9.900€

is a special type of permanent property title deed that gives the right to use the apartment at a certain time annually, according to the determined period.

Title deed (certificate of ownership) is written upon the purchase of a share of the flat, stating that it can be used only during the purchased period. This share can also be sold and inherited.

Apartments on a selected floor in our residence have been allocated to be purchased using the timeshare system. The flat will be divided into 12 shares / 12 months. You can buy any (one or more) of those months and use this flat in the you purchased period each year.

Timeshare Benefits at New Level Premium:

Having a share of a flat in timeshare can be thought as a lifetime hotel holiday guarantee every year. Your investment will not lose value and you will always be able to sell your share for higher value. You will make significant savings in terms of annual taxes and dues, as you will only pay for the month or months you purchase, not the entire year. You will be able to take advantage of the opportunity to earn rental income.

Timeshare in New Level Premium will be attractive for:

- Investors and those who want to earn income
- Families vacationing in rental apartments every year
- Families used to having regular holidays in 5* hotels

Inside the complex there are not only residential blocks, but also a 5* hotel. The hotel will be open all year. Apartment owners will be able to benefit from some of the social activities of the hotel for a fee and some for free. Discounts will be provided on paid hotel services.

Amenities available for you at the hotel:

- All inclusive system
- Spa center services
- Professional fitness center
- Aquapark
- A La Carte Restaurant
- Sky Bar Animation and entertainment for kids in the mini club
- Shuttle service to the beach, umbrellas and sun loungers will be available on the beach.

Choose your level

5* HOTEL AND CONCEPT RESIDENCE OF 7 BLOCKS

The management of the hotel and the New Level Premium residence will organize the arrivals and departures of the owners, control the condition and maintenance of the apartment, and resolve any disputes. In each timeshare flat, at least 1 share will belong to the management company, so that the company will have the right to settle disputes between the owners not only on the rights of a management, but also on the rights of the owner. The management company will also provide cleaning, maintenance and rental services.
