

CEZIRE (CZR)

**COMMERCE BEYOND BORDERS
ZONING FOR SUCCESS
RELIABILITY IN ACTION**

CEZIRE COMPANY
TRADING AND CONTRACTING

**C**

Contracting and Commerce: Reflecting both trade and contracting in the business world, while linking various markets, suppliers, and clients in both sectors.

**E**

Export: Emphasizing our role in exporting goods like food products and construction materials.

**Z**

Zones: Representing the different industries (like food and construction) and regions where we operate.

**I**

Innovation: Highlighting both modern trade practices and innovative approaches in construction contracting

**R**

Reliability: Ensuring we are a trusted partner in supplying goods and managing construction projects

**E**

Expertise: Demonstrating our company's skill and knowledge in both the trading and contracting sectors

Cezire (CZR) is a leading company focusing on exporting and supplying, while retaining a strong presence in the construction industry. Cezire (CZR) was established on December 18, 2015, as a limited liability company, licensed in Gaziantep, Turkey, under trade registration number 46867, and registered with the Gaziantep Chamber of Commerce. The company is involved in import/export, general trade, general supplies, construction, and infrastructure work. Cezire aims to operate across multiple sectors by leveraging the diverse expertise of its partners to meet local and international market needs with a commitment to reliability, and expertise.

Mission:

At Cezire, our mission is to excel in global commerce and contracting, recognized for reliability, and expertise. We aim to expand our export activities, supplying high-quality goods to international markets, while continuing to deliver dependable and innovative construction projects.

Vision:

Our vision is to be a trusted global partner in trading and contracting, providing top-tier services in exporting, supplying, and construction contracting across diverse industries and regions.

Turkey Office:

The Turkey office oversees company operations, focusing on construction, infrastructure projects, general trade, export management, and procurement. The team consists of experts in civil engineering, trade consulting, and legal accounting, ensuring smooth business operations and project execution
