# T E S T I M O N I A L S

- **Aarav Sharma** (8th Std): "The Programming & AI Basics course was absolutely brilliant. Now I actually understand how to code and feel ready for my engineering entrance exams, seriously."
- **Priya Singh** (9th Std): "After the Public Speaking class, my fear of talking on stage is totally gone. I gave a presentation last week and everyone clapped for me; it was too good!"
- **Kavita Reddy** (Parent of Anjali): "I enrolled my daughter in Microsoft Skills, and the difference in her school projects is remarkable. She's so independent and confident using Excel now, bless her."
- **Rajesh Verma** (Parent of Rohan): "Rohan's anger management issues worried us, but your course has really changed things at home. He's much calmer and thinks before reacting, thank you so much."
- **Dr. Sandeep Patel** (Parent of Neha): "The Money & Financial Literacy module is essential; wish I had this knowledge when I was young. Neha is already budgeting her pocket money so smartly."
- **Rohit Menon** (6<sup>th</sup> std): "I used to be so slow with calculations, but the Abacus training is amazing. I can multiply three digits in my head faster than I can grab my calculator now!"

"Join thousands of students who have already achieved remarkable growth through our flexible, lifetime-access video courses. Whether you aim to master Abacus, understand AI, or conquer Public Speaking, our structured learning path guarantees success on your schedule."

# FAQs :

**Q: I am a beginner. Do I need any previous knowledge for these courses?**

A: No, not at all! Courses like Basic Computer and Programming & AI Basics start from the very beginning, making them perfect for anyone new to the subject.

**Q: Do I need any prior experience to enroll in the program?**

A: No, most courses, like Programming & AI Basics and Basic Computer, are designed for absolute beginners, making it easy to start your learning journey.

**Q: Is this a single combined course or 11 separate modules?**

A: It is a comprehensive combo program featuring 11 distinct modules that can be taken separately.

**Q: Will I receive a certificate upon completing the courses?**

A: Yes, you will receive a verifiable Certificate of Completion for successfully finishing the program, which can be added to your resume or portfolio.

**Q: How will I know if I am learning correctly without a live teacher?**

A: The videos are highly structured. We provide plenty of practice exercises, quizzes, and clear instructions so you can easily check your own understanding. and for the doubts we clear it through Whatsapp group for the batches conducted.

**Q: Which course is best for quickly improving my career skills?**

A: The Microsoft Skills, Public Speaking, and Presentation & Time Management modules are essential skills that can immediately boost your profile for jobs and school.

# FAQs :

**Q: How can Abacus help my child?**

A: Abacus training helps your child become much faster at mental math and significantly improves their concentration and focus.

**Q: Is it cheaper to buy this combo than to buy all 11 courses separately?**

A: Yes! The combo package offers you the best value and as of now it is promotional offer, a much lower price than buying all the courses one by one.

**Q: Can I watch the videos on my mobile phone or laptop?**

A: Yes! Our website is mobile-friendly. You can access your courses easily on any device—phone, tablet, or laptop—whenever it suits you.

**Q: How long can I access the course videos after I complete them?**

A: You get lifetime access to all course videos through our website. You can log in and watch them anytime, anywhere, forever!

**Q: If I have a question about a course video, who can I ask for help?**

A: We have a dedicated support channel (usually email or a Q&A section) where you can post your doubts, and our instructors will provide guidance.

**Q: How long does it usually take to finish all 11 courses in the combo?**

A: Since you learn at your own pace, the time varies. However, you can estimate the total video hours and plan your study time accordingly, as there are no deadlines.
