About Us

Sauna Air Oy specializes in providing customers with a unique sauna experience by combining high-quality and exclusive products into a seamless whole.

Our goal is to bring luxury and relaxation to each customer's sauna enjoyment.

Our company was born out of a passion for sauna and the desire to create the perfect sauna environment. We combine the best products on the market, such as Narvi electrical and wood burning heaters and innovative Saunum air circulation system and heaters, designed to provide maximum comfort and enjoyment.

SaunaAir and EmotionWood Nordic Elegance Spa saunas are designed to bring peace of mind through emotions and mild steam. The keywords of our Nordic Elegance Spa style selection are *emotions*, *comfort*, *simplicity* and *Nordic design*. Our saunas combine traditional methods with advanced technology for enhanced experience.

Sauna from Finland
- Quality Member

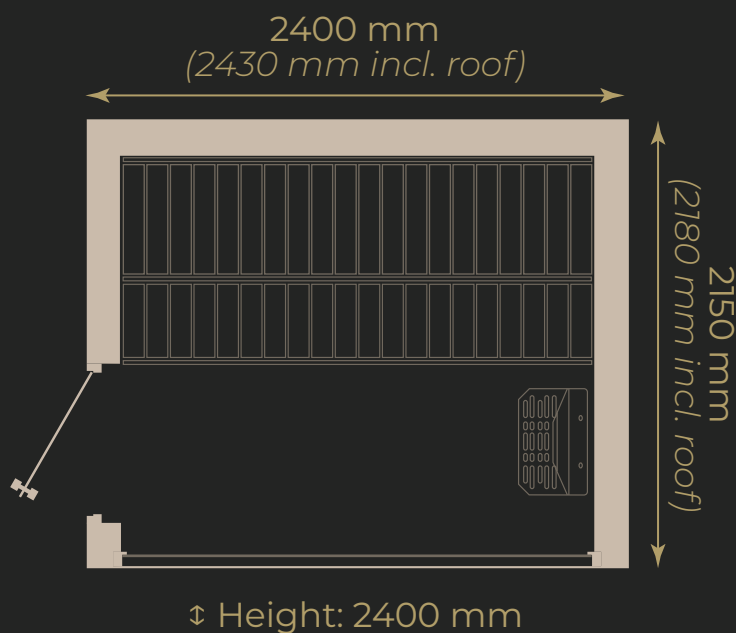

NORDIC ELEGANCE SPA MINI

Indulge in relaxation with the Nordic Elegance Spa Mini, a compact yet luxurious sauna designed for those who want a high-quality spa experience in a smaller space. This sauna offers the same elegant design and superior craftsmanship as its larger counterpart, but in a more compact form. Built with top-quality materials, it provides durability and style that last.

- **Exterior finish:** Dark Grey
- **Glass:** Double glass, grey+clear
- **Interior finish:** Hexagon Thermo Abachi
- **Bench:** I-shaped from Thermo aspen
- **Floor grate:** Thermo aspen
- **Lighting:** RGB LED wall - 3 LED strips (2 behind the backrest and 1 under the upper bench)
- **Heater:** Saunum Experience 9kW + Saunum control unit Leil

The versatile heating options allow you to enjoy a traditional wood-burning stove or the innovative Saunum effect, tailored to your preferences. Its ready-made design ensures quick and easy installation, so you can start enjoying your private sauna retreat without delay. Bring the luxury of a spa into any space with the Nordic Elegance Spa Mini.
