Our mission is to deliver innovative, high-quality products from around the world to promote education and urban development in Thailand through the import and export of advanced technology solutions that meet market needs.

THE COMPANY CORE VALUES

Innovation:

Commitment to creating and developing new, beneficial technologies.

Quality:

Adherence to providing high-quality products and services.

Responsibility:

Accountability towards the environment and society.

Sustainability:

Support sustainable development in all business aspects.

Products and Services

- **Interactive Flat Panels (IFPs):** State-of-the-art interactive displays for use in classrooms and offices to enhance teaching and working efficiency.
- **Educational Software:** Development of software that supports learning and teaching in classrooms.
- **Intelligent Transportation Systems (ITS):** Advanced technology systems for traffic management to increase safety and reduce congestion in cities.
- **Smart City Solutions:** Development and provision of technologies that enhance urban management in areas such as energy use, water management, and security surveillance.

THE COMPANY | EDUCATION SOLUTION

TECH INFINITY International Solutions is dedicated to providing advanced educational technology solutions designed to enhance the learning experience and streamline educational management. Our solutions focus on integrating cutting-edge technology into the educational environment to foster interactive, efficient, and engaging learning experiences.

Our Solutions

1. Interactive Flat Panels (IFPs)

- Features: Multi-touch capability, high-definition displays, seamless connectivity.
- Benefits: Promotes interactive learning, enhances student engagement, and supports collaborative activities in the classroom.

2. Educational Software

- Features: Customizable curriculum, real-time data analytics, interactive content.
- Benefits: Provides personalized learning experiences, tracks student progress, and offers comprehensive resources for both teachers and students.

3. Virtual Classrooms

- Features: Video conferencing, digital whiteboards, cloud storage integration.
- Benefits: Enables remote learning, facilitates real-time collaboration, and ensures continuous learning regardless of location.

4. Learning Management Systems (LMS)

- Features: Course management, assessment tools, communication platforms.
- Benefits: Streamlines administrative tasks, provides detailed performance reports, and enhances communication between educators and students.

5. Augmented Reality (AR) and Virtual Reality (VR) Tools

- Features: Immersive learning environments, interactive simulations, 3D models.
- Benefits: Enhances understanding of complex concepts, provides experiential learning opportunities, and increases student motivation.

didacta asia MEDIA PARTNERS | CO-OPERATION
congress WITH TECH INFINITY EDUCATION CO.,LTD.

Key Benefits

- **Enhanced Engagement:** Our solutions promote active participation and interactive learning, making lessons more engaging for students.
- **Personalized Learning:** Customizable software and tools allow for tailored educational experiences that meet individual student needs.
- **Improved Efficiency:** Streamlined administrative processes and real-time data tracking help educators manage their tasks more efficiently.
- **Future-Ready Skills:** Exposure to advanced technology prepares students for the demands of the modern workforce.

THE COMPANY | SMART CITY | SOLUTION

TECH INFINITY International Solutions is committed to advancing urban management through innovative Smart City technologies. Our solutions aim to enhance the efficiency, safety, and sustainability of cities by integrating advanced technology into various aspects of urban infrastructure.

Our Solutions

1. Intelligent Transportation Systems (ITS)

- Features: Real-time traffic monitoring, adaptive traffic signal control, integrated public transportation management.
- Benefits: Reduces traffic congestion, enhances road safety, and improves the efficiency of public transportation.

2. Smart Energy Management

- Features: Automated energy monitoring, renewable energy integration, smart grids.
- Benefits: Optimizes energy consumption, reduces costs, and promotes the use of renewable energy sources.

3. Smart Water Management

- Features: Real-time water quality monitoring, leak detection systems, automated water distribution.
- Benefits: Ensures the efficient use of water resources, reduces waste, and maintains high water quality.

4. Smart Security Systems

- Features: Advanced surveillance cameras, AI-based threat detection, emergency response integration.
- Benefits: Enhances public safety, provides rapid incident response, and improves overall security management.

5. Environmental Monitoring

- Features: Air quality sensors, noise pollution monitoring, waste management systems.
- Benefits: Promotes a healthier urban environment, supports sustainable practices, and provides valuable data for urban planning.

Key Benefits

- **Enhanced Efficiency:** Streamlines urban operations through automated and intelligent systems.
- **Improved Safety:** Increases public safety with advanced monitoring and rapid response capabilities.
- **Sustainability:** Supports environmentally friendly practices and optimizes resource usage.
- **Data-Driven Decision Making:** Provides comprehensive data analytics to inform urban planning and policy making.

THE COMPANY GOALS AND STRATEGIES

Market Expansion.

Increase market share domestically and internationally by expanding the customer base and introducing new products that meet customer needs.

Innovation Development.

Invest in research and development to create new, competitive products and solutions.

Partnership Building.

Form alliances with leading organizations in various industries to strengthen and enhance competitiveness.

Personnel Development.

Enhance the skills and capabilities of personnel within the organization to effectively meet market and customer demands.
