

# ANGEL MESSAGE

- An Angel Reading is a session where a psychic or intuitive practitioner connects with angelic beings to receive messages and guidance from them. During this reading, the practitioner channels insights from angels, who are believed to provide support, protection, and wisdom. The focus is on uplifting and positive messages that can offer clarity, encouragement, and direction in various areas of your life. If you would like someone specific please let me know. When I open up , many times whoever would like to come is the one or one's who show up. I have never had an issue requesting someone's loved one to show up yet. I open my space with love and respect ALWAYS!
