

# What is Shamanic 3rd Eye Surgery

Remote Shamanic 3rd Eye Surgery is a spiritual healing practice where a shaman or energy healer performs a form of energetic surgery on the recipient's third eye (also known as the brow chakra) from a distance. The third eye is associated with intuition, perception, and spiritual insight. This process aims to clear blockages, remove energetic intrusions, and enhance the recipient's ability to access higher levels of consciousness and intuition.

## What Does Remote Shamanic 3rd Eye Surgery Include?

- Energy Diagnosis: The practitioner assesses the energetic state of the recipient's third eye, identifying any blockages, intrusions, or imbalances.

- Spiritual Healing: The practitioner may channel healing energies or perform rituals to support the recipient's spiritual growth and enhance their intuitive abilities.
