

Nusantara Agrocultrual: Raising Hope Together with Farmers

Welcome to Nusantara Agrocultrual, a leading supplier of high-quality agricultural by-products. We transform rice husks and palm oil waste into high-value environmentally friendly products while supporting local farming communities throughout Indonesia.

Rice Husk Products Catalog

Explore our premium range of sustainable rice husk and EFB products. These agricultural by-products offer exceptional value across multiple industries, from agriculture to manufacturing.

Rice Husk: Nature's Versatile Resource

Agricultural Applications

Enhances soil quality as mulch or compost. Creates perfect animal bedding material.

Energy Production

Provides sustainable biomass fuel for power generation. Reduces fossil fuel dependency.

Manufacturing Uses

Transforms into biochar for water filtration. Creates eco-friendly building materials.

Premium Quality Rice Husk

Carefully Sourced

Selected from premium rice varieties. Processed under strict quality controls.

Reliably Supplied

Consistent year-round availability. Flexible packaging options for your needs.

Eco-Friendly

100% natural and biodegradable. Reduces agricultural waste effectively.

Our Rice Husk Product Range

Explore our complete lineup of sustainable, high-quality rice husk products

Each product undergoes rigorous quality control to ensure consistent performance across all applications

Rice Husk Powder: Fine Innovation

Silica-Rich Composition

Our rice husk powder contains high silica content. This makes it perfect for industrial applications. Each batch undergoes rigorous testing for consistency.

Multiple Applications

- Rubber industry filler
- Construction material additive
- Cosmetic ingredient
- Plastic manufacturing component

All products are sustainably sourced and processed to meet the highest quality standards

Rice Bran: Nutrient Powerhouse

Rich in Antioxidants

Promotes overall health and wellness

Valuable Oil Source

Contains heart-healthy fatty acids

Fiber and Protein Content

Supports digestive and muscular health

Rice Bran Applications

Food Industry

Nutritional supplement in baked goods
and cereals

Cosmetics

Natural ingredient in skincare and
beauty products

Oil Extraction

Source of premium cooking and
cosmetic oils

Animal Feed

Nutritious component for livestock feed
formulations

Burnt Rice Husk: Biochar Excellence

90%

Carbon Content

High carbon concentration perfect
for soil amendment

5x

Water Retention

Improves soil's ability to hold
moisture

2-3°C

Temperature Regulation

Helps maintain optimal soil
temperature

Burnt Rice Husk Applications

Soil Enhancement

Improves soil structure and nutrient retention. Enhances plant growth and crop yields. Reduces need for chemical fertilizers.

Water Filtration

Removes contaminants effectively. Works as an excellent biofilter. Provides sustainable water purification solution.

Industrial Fuel

Offers high calorific value. Burns cleanly with minimal smoke. Reduces fossil fuel dependency.

All products are sustainably sourced and processed to meet the highest quality standards

Rice Husk Ash: Silica-Rich Resource

Construction Material

Enhances cement and concrete durability

Industrial Additive

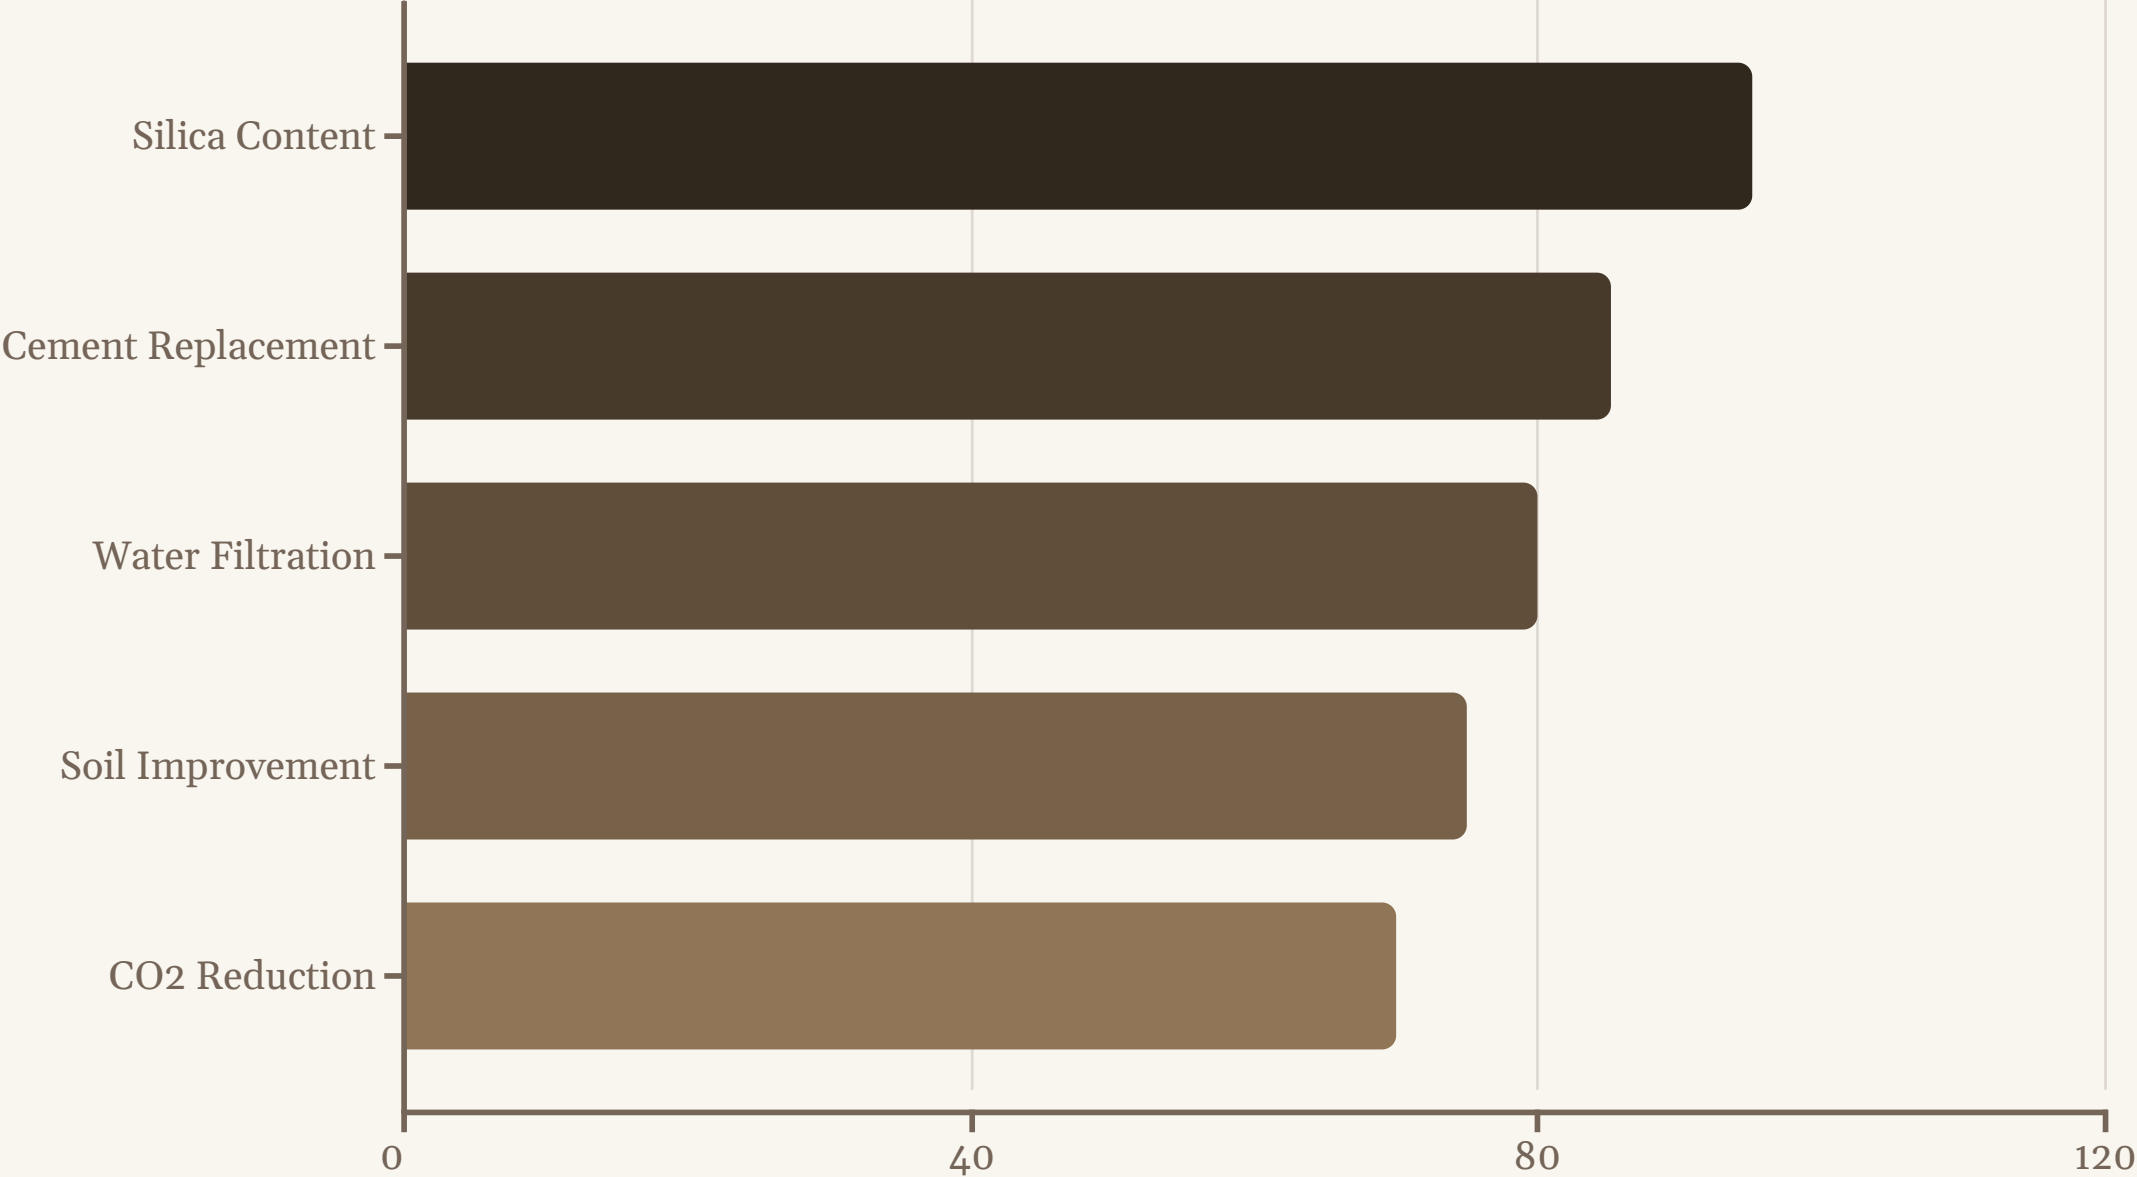

Valuable component in ceramics and rubber

Agricultural Amendment

Improves soil pH and adds trace elements

All products are sustainably sourced and processed to meet the highest quality standards

Empty Fruit Bunch (EFB): Palm By-Product

Harvesting

Collected after palm oil extraction. Processed to remove residual oil.

Processing

Shredded and cleaned. Prepared for various applications.

Utilization

Transformed into mulch, compost, or fuel. Nothing goes to waste.

All products are sustainably sourced and processed to meet the highest quality standards

Why Choose Our Products?

Sustainable Production

Our manufacturing processes follow strict environmental standards. We minimize carbon footprint at every step.

Quality Assured

Every batch undergoes rigorous testing. We guarantee consistent quality and performance.

Global Delivery

We ship worldwide with reliable logistics partners. Customized packaging meets your specific requirements.

Contact Us

Reach out to our team for inquiries, orders, or product information. We're ready to assist you with all your agricultural by-product needs.
