

CAPABILITY STATEMENT 2025

COMPANY OVERVIEW

Setton Industries is a manufacturing consulting firm with over 20 years of high-impact industry expertise. We specialize in delivering innovative, custom solutions that optimize operational performance and drive success for our clients. Our mission is to empower businesses with strategic insights and cutting-edge technical support, ensuring results that drive the bottom line in every project.

COMPANY SNAPSHOT

- **Primary Business POC:** Jared Feldman
- **Website:** settonindustries.com
- **Phone:** 321-448-2020
- **Email:** contact@settonindustries.com
- **Address:** 1185 King St Merritt Island FL, 32953
- **Service Area:** Nationwide
- **NAICS Codes:**
 - 541330 – Engineering Services
 - 541690 – Other Scientific & Tech Consulting Services
 - 541512 – Computer Systems Design Services
 - 541519 – Other Computer Related Services
- **D-U-N-S #:** 12-912-5897
- **Unique Entity ID (UEI):** JJPTJMGHH2S5
- **CAGE/NCAGE:** 115Y9

LEADERSHIP

- **Jared Feldman, Founder/CEO:** A University of Florida graduate bringing decades of problem-solving experience from contributor roles to leadership positions at top-tier engineering firms such as SpaceX, Blue Origin and Boeing.

PAST PERFORMANCE

- Over 20 years of hands-on experience in the manufacturing and engineering industries
- Proven problem-solving approach honed at leading firms like **SpaceX**, **Blue Origin** and **The Boeing Company**
- Partnered with a small business to establish an engineering division, unlocking a projected annual revenue potential of over **\$200,000**

CORE COMPETENCIES

- **Manufacturing Consulting:**
 - Streamlined process optimization and operational efficiency strategies tailored to your needs.
 - Leveraging years of hands-on experience to understand where processes can be improved
- **Product Development:**
 - Crafting innovative, high-quality products from concept to completion with meticulous attention to detail and cutting-edge techniques.
- **Software:**
 - Custom Software Development, AI & Automation Systems, Cloud Architecture & DevOps, Security, Authentication & IAM, End-to-End Product Delivery
- **2D Drafting:**
 - Precision design services to bring your concepts to life with industry-standard compliance.
- **3D Modeling:**
 - Advanced modeling support for manufacturing projects with experience in software such as NX, SolidWorks, Fusion360, CREO and more!
- **Project Management:**
 - Orchestrating complex projects ensuring deadlines, budgets, and goals are met with unwavering precision.
- **Training & Knowledge Transfer:**
 - Equipping teams with comprehensive, hands-on training and actionable expertise to drive performance and sustain long-term success.

DIFFERENTIATORS

- **Deep manufacturing knowledge** spanning across multiple industries including but not limited to, residential kitchens, commercial security, rockets, space capsules and more!
- **Client-Centric Approach:** Prioritize close collaboration with clients, ensuring tailored solutions that align with unique business goals and drive measurable success.
- **Agile and Responsive:** Streamlined operations enable rapid project turnaround without compromising quality, ensuring clients meet tight deadlines.
- **Cost-Saving Innovation:** Deliver creative engineering solutions that optimize processes and reduce expenses, maximizing client profitability without sacrificing quality.
- **Hands-On Training Mastery:** Provide customized, practical training programs that empower client teams to sustain improvements and drive long-term success.
