6 Tips to Continuously Sleeping Well at Night

Stay away from stimulants late in the day.

- avoid beverages and food with caffeine.

Create and get into a relaxing pre-bedtime routine.

- * a relaxing activity an hour before bedtime.

Keep your bedroom at a cooler temperature. An ideal bedroom to sleep in is cool, quiet and dark.

Do a regular exercise.

- a regular exercise can help improve your sleep.

Consistent sleep schedule.

- go to bed and wake up the same time everyday/night.

Turn off all screens.

- stop watching all devices and TV an hour before bed.
