March Demo – Tracy Z – Mixed Media

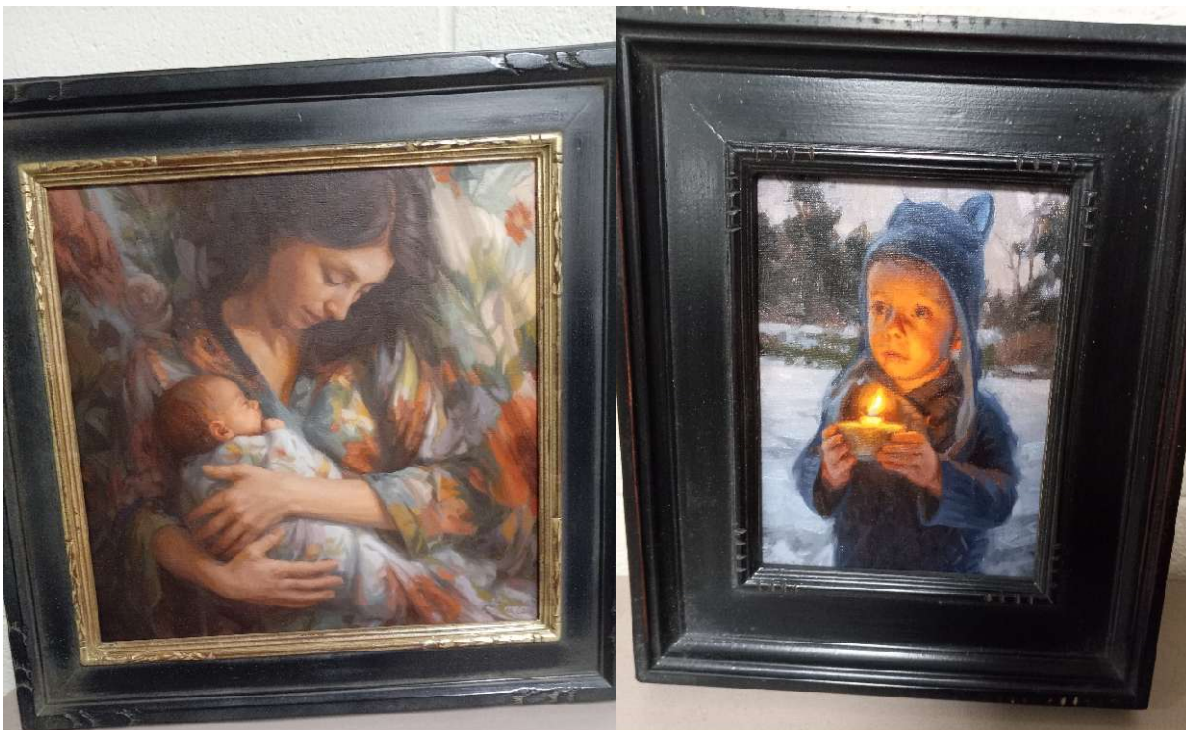

Artist Bio

I have been an artist my whole life, though professionally for just a few years. I was an art teacher for 19 years, resigning in 2021 to focus on my art. In 2023, I was the artist in residence at the Children's Museum in Denver, where I created my first piece of Public Art.

I create colorful mixed media animals using watercolor, colored pencils, and markers. As a trained illustrator, I love creating art that tells a story and has meaning behind it. I am especially interested in telling the story of how animals are connected with nature through my art, and to show the beauty of the environment around us as something that animals are a part of, not just placed within. My newer pieces of art have started to play with that idea.

Pictures from February Demo – Robin Cole Presenter
