

Blue in Nature

Kwesi woke up early and went outside to explore all the beautiful blue things in nature. First, he picked a juicy **blueberry** from a bush and popped it into his basket. Then he spotted a **blue dragonfly** beside the path of **blue hydrangeas**.

As he looked up, Kwesi smiled at the bright **blue sky** stretching high above him. A noisy **blue jay** flew past his head and landed near the trees. Down by the water, he noticed a **blue starfish** resting quietly on a rock.

Before heading home, Kwesi watched a beautiful **blue butterfly** flutter over a **blue beetle** and land gently beside a tiny **bluebell flower**.

“Wow,” Kwesi said.
“Nature has so many beautiful shades of **blue!**”

Blue in Nature Memory Game

Can you help Kwesi remember what he saw in nature?

Print the Kwesi cards and the blue nature object cards, then cut out each square. Mix the cards up and place them face down. Flip over two cards at a time and try to match Kwesi's discovery card with the correct blue object!
