**Women Like Me Kenya** is a heart-led initiative amplifying the voices of courageous Kenyan mothers—many of them widows—who are raising children in extreme poverty. Through storytelling, (four published books) we give them a platform, a purpose, and direct support for essentials like food, school fees, and medicine. Every book sold helps provide hope, dignity, and a future for these remarkable women and their families.

## Women Like Me: A Global Sisterhood of Storytellers

From Canada to Kenya, Spain to Iceland, the UK to Australia, the Netherlands to Mexico, and the United States - Women Like Me writers are rising around the world.

We are mothers, dreamers, survivors, and truth-tellers. Our stories cross borders and time zones, but they all speak the same truth: you are not alone.

Together, we are building a global tapestry of courage, connection, and healing, one story at a time.

We are Women Like Me. We are everywhere.
