

**BOLDNSUBTLE**

BOLDNSUBTLE was born from a singular, quiet rebellion: the belief that the ritual of dressing should be an act of liberation, not a complication.

We understand that modern elegance isn't found in the ornate, but in the effortless. It is the grace of a garment that simply works - pieces crafted with a precision that honours the silhouette, a resilience that defies the seasons, and an aesthetic that commands attention without demanding it.

### **One Woman. Every Hour.**

The woman who greets the dawn at 10:00 AM is the same soul who embraces the moonlight at 10:00 PM. She does not perform; she does not pivot between personas. She is a singular force living a multifaceted life, and she requires a wardrobe that moves at the speed of her ambition.

We do not design for "versions" of you. We design for the whole of you.

THE COLLECTION

## **A Synthesis of Form: The Collection**

From the creative pulse of Dublin to the master ateliers of Portugal, our latest collection is a dialogue between structure and soul. It is an evolution of the BOLDNSUBTLE foundation—a curated assembly of separates designed to hold their shape while you find yours.

### **The Protagonists**

Every piece is a study in intentionality, crafted to be the silent architecture of your daily life:

- The Blazers: Available in stark black and pristine white, choose between the Oversized Blazer—a sanctuary of relaxed tailoring—or the Cropped Blazer, a sharp tribute to modern proportions.
- The Classic Tailored Trousers: The definitive anchor of the wardrobe, flowing with effortless discipline.
- The Vegan Leather Maxi Skirt: Rendered in obsidian and rich earth-brown, a silhouette that offers a liquid-like drape with a defiant edge.
- The White Tailored Shirt: A perennial masterpiece of light and line.

## **A Symphony of Versatility**

This is not a collection of moments, but a continuum.

Our separates do not exist in isolation; they are designed to gravitate toward one another. A blazer and trouser create a portrait of authority by morning; by evening, that same blazer finds a new rhythm alongside the leather maxi skirt.

In a palette of monochrome and espresso, these pieces integrate seamlessly into the landscape of your existing wardrobe. They are the "missing links" that require no explanation, dissolving the barrier between "work" and "life."

## **Enduring Grace**

We select fabrics not just for their beauty, but for their memory. These are textiles chosen for how they hold a line, how they respond to movement, and how they resist the fatigue of time.

These are not garments for a season; they are companions for a lifetime. Architecture you can wear. Quality you can trust. Luxury that moves with you.
