FROM CHAOS TO FOCUS

Turn shifting priorities into clear direction

When priorities change quickly, execution often unravels. Projects stall, costs balloon, and teams lose focus. This workshop helps organizations reconnect strategy to execution and build accountability systems that keep initiatives moving forward. Rather than abstract theory, participants use real work during the session to spot misalignment and bring clarity back to the table.

OBJECTIVES

- Diagnose the root causes of confusion and misalignment.
- Translate big-picture strategy into daily execution.
- Build accountability systems that keep priorities on track.
- Leave with a plan to restore focus in current projects.

KEY TOPICS

- **Sources of Chaos:** identify where priorities and actions fall out of sync.
- **The Focus Framework:** Connect strategy with execution.
- **Execution Checkpoints:** Build systems to track progress and accountability.
- **Real-World Application:** Apply the framework to an active project or priority.
- **Commitment Plan:** Define next-step actions for the team.
