

Index to Personal Names

Raser-related Persons

This index includes all mentioned persons with Raser blood (including John Reser/Rezer Branch members), their spouse and close spousal family members, who appear in the five genealogical chapters, as well as selected names from the Appendices and Endnotes. Non-related persons, including some of *definite or possible Wittgenstein origin*, are listed in the Non-Raser-related Persons section which appears at the end of the index.

All persons born Rösler, Reser, Raser *or other variants* are indexed under Raser, except descendants of John Reser, Jr. (J-2), who are indexed under Rezer. All persons with an ID-numbered "full-life" account (such as Baltes Raser A-3), *and their spouse*, have their ID number appended to their name. Children of ID-numbered persons (but not their spouse) have their parent's ID number appended, with their sequence number in the parents' list of children added (i.e., A-3-8 will be seen to be Sarah, the eighth child of Baltes Raser). All females are indexed by their maiden name and all mentioned married names.

Since many ID-numbered individuals have extensive full-life biographical accounts, *only the first page* of their numbered account is indexed (which page is noted by an **asterisk**; i.e., 35*). Also, since they may be discussed in other family member's accounts, they are usually indexed there only when the information supplements what appears in their own account. When any of their children show more than one indexed page, the page where they are discussed *within the parents' list of children* is noted by an **asterisk**.

When an individual is the subject of—or is associated with—a pictorial item (such as a portrait, residence photo or pictured historical document), the item page is given with a **p-suffix** following the page number; i.e., 36p.
