To the Chairpersons of Butler County Republican Party and all members,

Due to my personal dissatisfaction with the Butler County Republican Party, I have decided to resign my position as the Liberty Township #10 Representative. Of course, this area has over 1,100 people/550 homes. I have had the honor of distributing and visiting every home in my precinct. I keep each home informed, through handouts and door-to-door conversations. All, without concern of political affiliation – Independent (over 950), Republican (over 110), or Democratic (Over 60). It has been slow going, having to use a cane/walking stick; but I persevered due to my passion and beliefs; even at times against advice and guidance of our Butler County Republican party; which I could NOT agree with! [Only inform my Republican homes.]

I will continue to be vocal for all causes that I believe in. Just NOT as a representative of a Party that has management and members who believe they have right to blame/violate Party decisions/by-laws. Individual members, from both the Executive & Central Committee, of the Party do not have the right to violate the majority decision once made by vote! This has been done numerous times by members. Individual members published and distributed their own [official looking BCGOP] slate cards, individual letters, and handouts that went against the Party decision by vote. These items have even besmirched other members of the GOP party. Many of these individual writing actually caused the loss of Republican representation in Butler County,

The basis of this decision is also, in my opinion ONLY, due in part, to a lack of support given to the members by the management of the party, and the focus, as a party, to help both national and local Republicans.

***I hereby give my official notice, through this statement, effective immediately, that I resign as a member of the Butler County Republican Party, representing the Liberty Township #10 Precinct.***

For those interested in how I came to my decision, I have referenced a link to a website with a detail chronological explanation. It also has related documents. See P.S. below.

p.s. [1] I decided to wait to resign until after the successful election of President Donald J. Trump, Vice-President J.D. Vance & US Senator Bernie Moreno.

[2] A detailed explanation of what lead me to this decision to resign and a copy of all my materials I've created for the elections & handouts will be made available on a new website, over the coming four-to-six weeks It can be found at <https://Mikelrwin-musings.com>.
