Environmental & ESG Support
Accredited Skills Program Training

Precision in the Science. Integrity in the Storm.

Company Overview

Valiant Compliance Solutions (Pty) Ltd is a specialised SHEQ, chemical safety, ISO systems, and food safety consultancy serving the SA industrial, chemical, manufacturing, and food production sectors. Founded by Lee O'Reilly, the company delivers advanced regulatory compliance solutions grounded in scientific accuracy, legislative alignment, and practical operational implementation.

Service Offerings

We operate as a boutique high-specialization consultancy, offering clients a full compliance ecosystem that blends:

- Chemical regulatory expertise (GHS/SANS 10234 SDS authoring, hazard classification).
- Integrated ISO system implementation (ISO 9001, ISO 14001, ISO 45001, HACCP, ISO 22000).
- Accredited and non-accredited skills program training essential for audit evidence and workforce competence.
- Outsourced SHEQ management for SMEs and scale-driven organisations.

This unique intersection positions Valiant as one of the few firms in South Africa capable of supporting compliance from data to audit-readiness.

MARKETS WE SERVE

- Chemical manufacturers and blenders and importers
- Distributors and warehousing operations
- Automotive, coatings, & industrial sectors
- Agrochemical formulators
- SMEs lacking an internal SHEQ/ISO resources
- Food manufacturers requiring HACCP/ ISO 22000

Our approach is practical, science-based, and legislation-aligned, ensuring clients receive solutions that are both technically sound and operationally realistic.

CUSTOM TAILOR-MADE SOLUTIONS

Valiant offers customised, scalable systems for organisations with unique operational risks, chemical formulations, and production environments. This includes:

- Bespoke SDS portfolios
- Custom ISO/HACCP implementation roadmaps
- Industry-specific training matrices
- Post-audit corrective action programs
