Bug and Solar Screen Catalog

NEW PRODUCT YEAR 2026

Better Outdoor Living

Enjoy your lanai or patio year-round—without the bugs, glare, or harsh heat. Our premium mosquito and solar screens combine German quality, European design, and Florida manufacturing to deliver unmatched durability, style, and ease of use.

Built with Heroal zip screen technology and the ClipZip® high-performance zipper and rail system, these screens are engineered for long-lasting performance in Florida's toughest conditions while blending seamlessly into your home's architecture.

Elevate Your Environment

The remarkably compact design allows you to conceal the box and tracks in ways that were once unimaginable. However, with the housing and tracks appearing so sleek and elegant, you might find yourself reluctant to hide them!

Imagine having a spot where your family can hang out and enjoy the outdoors without pesky mosquitoes or harsh sunlight. Picture a cozy patio where you can kick back, entertain, and spend quality time with loved ones. By turning your outdoor area into a bug-free, shady haven, you'll find yourself wanting to step outside more often. This upgrade not only makes your outdoor space more usable but also makes you feel more at home. With the comfort of a mosquito-free and glare-free patio, it becomes an extension of your home, perfect for relaxing after a long day or hosting family and friends.

Savor the bliss of outdoor coziness all year round, minus the bug invasion! Soak up the delightful vibes without melting under the fiery sun. Enjoy your own little oasis, safe from nosy neighbors, while reveling in your outdoor haven.

The Heroal mosquito and solar screen is an energy-efficient zip screen system designed to handle Florida's toughest conditions.

- High wind stability: Withstands winds up to 90 mph.
- UV protection: Blocks up to 100% of harmful rays to keep interiors cool and prevent fading.
