Scope of Work

Purple Wave has been asked to provide an estimate of value for the assets contained in this catalog. All facts and data set forth in this report are true and correct to the best of the appraiser's knowledge.

The fee for this report is not contingent upon the values reported. There have been no guarantees associated with this fee and no liability can be intimated or assumed in any manner.

Physical condition in most instances has been determined by observation or indication by others. Any unknown conditions existing at the time of inspection could alter the value. No responsibility is assumed for latent defects of any nature whatsoever which may affect value, nor for any expertise required to disclose such conditions.

Neither the appraiser nor any officer or employee of Purple Wave has any financial interest in the property appraised, unless specifically noted.

Valuation Approach

This opinion is intended to provide an estimate of the value of personal property or asset to supplement the valuation process of lending institutions collateral validation process.

In preparing this opinion, Purple Wave estimates the values of the subject property by assessing the fair market value. In determining the value Purple Wave may consider a number of factors, including but not limited to the condition of the asset including any recent repairs or upgrades, the age of the asset, recent used sales records for comparable assets, recent technological advancements that may have rendered the asset obsolete, the availability of the asset in the market and market conditions.

The opinion is prepared and reviewed by a GPPA certified USPAP appraiser with over 5,000 hours of appraisal time. Experts on specific types or makes of assets may be consulted to determine the condition and specific features of an asset. Technological sources of data about asset details may be consulted as part of preparing the opinion.

This opinion is NOT a USPAP compliant appraisal. Under no circumstances shall the requesting party rely upon the opinion as a substitute for its own diligence and procedures.

Definitions

These terms are defined as follows:

Fair Market Value (FMV) - the value of an asset that can be expected in a transaction with a single seller and a single buyer, neither of whom are under any compulsion or time restriction to complete the transaction.

Orderly Liquidation Value (OLV) - the value at a sale, given a reasonable period of time properly advertised to find a buyer, with the seller having a specific date to sell on as-is, where-is basis, as of a specific date.

Forced Liquidation Value (FLV) - the expected value with limited advertising, and the seller being compelled to sell with a sense of immediacy or involuntary on an as-is, where-is basis, often within 30 days.
