We are excited to present our company for your construction and development needs. At ATM, we combine creativity, innovation, and strategy to deliver exceptional solutions that will help your construction plan.

**Eko Kusworo, S.T**  
Managing Director

# Company Overview

## About Us

ATM is a full-service contractor established in 2020. With a passion for crafting engaging construction experiences, we've successfully served clients across diverse industries, helping them achieve their goals.

## Mission

Our mission is to empower businesses with innovative solutions that drive sustainable growth

## Vision

Our vision is to become a globally recognized leader in construction, renowned for our creativity, expertise, and unwavering commitment to our clients' success

# Our Services

## Civil Construction

Construction specifications are the materials, products, and other details used in construction projects. These documents can include architectural plans, product data sheets, and maintenance manuals. Altogether, construction specifications outline the quality standards and requirements for a particular project
