

NeuroBalance Project

*"Every Brain Deserves to Be Understood —
We Equip Minds to Find Emotional Balance,
Learn, and Build the Strength
to Thrive Through Life's Challenges."*

Customized Neuroscience-Labs - Innovative Neuroscience Brain Training

Elementary & Middle School Regulation and Brain Training Spaces

Custom-designed, neurobiology-based regulation and cognitive spaces serving as alternatives to punitive disciplinary practices, with targeted emphasis on Tier 2 and Tier 3 regulation needs.

Typical Investment Range

- Neuroscience-Lab design set up, materials & equipment: \$6,000-\$10,000
 - Includes support for *district grant writers*
- Training, implementation & year-long support: \$8,000
 - Includes "Resetting the Vagus Nerve" all 8 sessions
 - Includes Foundational Neuropsychology Education, Part 1
 - Includes Neuroscience-Lab room training
 - Includes assessment tool and data collection support

Neuroscience-Labs are often funded through grants or special initiatives and planned as part of future budgeting.

MTSS Alignment Statement

Supports Tier 1, Tier 2, and Tier 3 by providing a neuroscience-informed intervention environment where regulation, executive function, and learning access are strengthened through repeated use—supported by daily student and staff assessment tools that generate data for MTSS meetings and IEP conferences.
