

Aesthetic Organic

1. About Us

Aesthetic Organic, founded in 2012 by Mr. Adil Sattar Abbas, is one of Iraq's leading distributors of high-quality aesthetic products and medical equipment. Built on years of industry experience, our company was established in response to a growing demand from doctors and professionals for better quality and more specialized solutions in the aesthetic field.

Recognizing the gap in both product standards and service delivery, Aesthetic Organic partnered with proficient and capable industry experts to raise the bar and redefine expectations. Today, we proudly serve clinics, hospitals, and practitioners across Iraq with premium products, certified technologies, and consistent regulatory support.

With a dedicated export sales and regulatory affairs team across Kurdistan region and central and south of Iraq, we ensure all products are imported in full compliance with Iraqi health regulations on time and to standard. Our commitment to quality, compliance, and customer trust has positioned Aesthetic Organic as a reliable partner in the region's growing aesthetic and medical industry.

2. Mission & Vision

Our Mission is to redefine beauty in Iraq by offering safe, effective, and scientifically backed aesthetic treatments and products. We are committed to raising the standards of the aesthetic industry by providing healthcare professionals with trusted, high-quality solutions that deliver real results while ensuring regulatory compliance and customer satisfaction at every level.

Our vision is to strengthen our position as leading company in aesthetic excellence across Iraq by 2030. Building on our established leadership, we are committed to advancing the industry through ethical practice, scientifically proven solutions, and a focus on holistic beauty care. Our goal is to continue setting higher standards delivering exceptional results, supporting medical professionals, and enhancing client confidence inside Iraq.

3. Core Values

At **Aesthetic Organic**, our values reflect our commitment to excellence as a trusted distributor of global aesthetic brands in Iraq. These principles guide how we operate, collaborate, and grow.

- 1 Global Excellence: we bring internationally recognized, science-backed products to the Iraqi market.
- 2 Integrity: we operate with transparency, professionalism, and respect in every partnership.
- 3 Quality & Compliance: we ensure every product meets the highest safety and regulatory standards.
- 4 Client Focus: we support healthcare professionals with responsive service and tailored solutions.
- 5 Innovation: we continuously introduce new technologies to elevate aesthetic care in Iraq.
