

About Us

Our Mission is to help every school student get into his/her dream university through our unrelenting effort in providing most authentic and verified information about the university and country to students and thus create a bond of trust with thousands of students.

Upbrainiacs is a disruptive higher education solution provider offering B2C solutions for people seeking information on courses in medicine and other streams. The main offerings in the B2C model includes providing end-to-end admission solutions to students. With over 15+ universities in its database, Upbrainiacs is one of the best education consultants for abroad because we help students from their initial counseling till their convocation.
