We can supply wide varieties of Sizes, Thicknesses and Colors, along with standard regular stretch wrap items

Cardboard and Paper

Carton Boxes

- Regular Slotted Carton (RSC) is the most common box design and preferred by different industries
- Single Wall ECT: 23 – 26 – 29 – 32 – 40 – 44 – 55 (C & B most common Flute)
- Double Wall ECT: 42 – 48 – 51 – 61 – 71 – 81 (BC most common Flute)

- Can customize with different sizes, design and print options

Edge Board

- Corner protector – Most commonly know as 90° Angle Board, and can be customised as per requirements – Length, Leg Width, Thickness, Color & Print

Tubes & Cores

- Paper Core and Tubes – Used in many industries for their product stability, protection and easy transportation → Converting, Tape & Label, Packaging, Firework, Shipping, Steel, Textiles, Cosmetics etc. Can be made in different length, diameters and thicknesses.

Slip Sheets

- Anti - Slip Sheets : Most commonly used for creating a separator between >2 layers of stacking for preventing slippage and damage loads while handling and transportation . Special non-slip coating allows upto 50° angle.
- Push and Pull Sheets : These sheets are used as a replacement of pallets. There is 3” lip on 2 sides for the use with forklift. Available in all standard sizes and thickness, with option to customize.

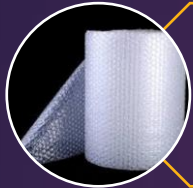

Cradle

- Roll Cradles : These are mainly used for securing Films rolls, Textile/Fabric rolls, Paper rolls, Machine parts etc. by preventing damage and shape deformation during transportation and handling.
- Most common are made from Paper pulp and can be customized as per requirement.
- Plastic Cradle option is also available.

Protective Packaging

Bubble Wrap

- **Bubble rolls** : Most versatile to protect fragile items during handling and transportation. Available in standard 12", 16", 24" and 48" widths with running or customized perforated lengths. With bubble height 3/16", 5/16" and 1/2" as per packaging requirements. It can further be customized based on colors, sizes or any other properties.

Bubble & Paper Mailer Bags

- **Protective Mailer Bags** : – Bubble mailer bags are mainly used for shipping fragile items and generally comes in Poly and Kraft paper with cushioning bubble liner inside, with self adhesive strip. Can be available in custom sizes along with popular sizes

- Small: 4" x 8", 6" x 9"
- Medium: 8.5" x 12", 10.5" x 16"
- Large: 12.5" x 19", 14.25" x 20"
- Extra Large: 19" x 24"

Foam Peanuts

- **Packing Peanuts** are great source for filling the void gaps and help protecting fragile items during transportation and storage. They are light in weight so easy to use and don't add to freight cost.

Polyfoam Rolls

- **Polyethylene foam** is a versatile material with moisture barrier properties helps protect delicate items when shipping. Supplied in running and perforated lengths and customise widths. Customized bags, pouches, & tapes are also available.

Edge Board for Strap guard

- **Strapping protectors** are used to safeguard packages and pallets during shipping by preventing damage from strapping tension. Small 2x2x2, Medium 3x3x3 & Large 4x4x4 are some of the common sizes. They are typically made of durable materials like laminated fiberboard or plastic and are designed to distribute the pressure of straps across a wider area.

Labels & Tapes

Labels

- General Purpose labels for Shipping, Barcode & Warehouse. We have Sheet labels, Direct Thermal label rolls & Thermal Transfer Label rolls

- 4" x 6"
- 4" x 4"
- 3" x 2"
- 2" x 1"

Carton Poly Tape – Poly and Brown paper Tape

- Industrial Box Packing Tapes are widely used and most versatile tape for sealing boxes and packages, often made from polypropylene or polyester. 2"/3" x 110yds x 2mil tape is the most common size and sticks easily to any surface and good for carton weight 15-35 lbs.

- Other than standard size we can also supply custom size, color and printed tapes.

Pallets

Wooden Treated & Untreated

- **Pallet shipment** is the most sustainable, economical & popular way to ship freight. Strong & Sturdy pallet base allows stacking and preventing goods stability during shipment, also easy mobility during storage, loading and unloading.
- Standard Pallet sizes
 - 48 x 40 (GMA/CBA)
 - 42 x 42
 - 48 x 48
- Customized Pallet Types can be supplied, with ISPM certification for international shipping
- Options available New Wood, Recycled, Heat Treated, remanufactured and combination
- Available in 2-way or 4-way designs
- Stringer pallets, Block Pallets, Solid Deck Pallet, Double Face Pallet, Double Wing Pallet are the most common design used by different industries as per specific load requirements.

Plastic Pallets

- **Plastics Pallets** are preferred over wooden pallets due to its Durability, Hygiene factor, Lesser Weight, Sustainability, Uniformity and well accepted in International shipping.
- Standard Pallet sizes
 - 48 x 40 (GMA/CBA)
 - 42 x 42
 - 48 x 48
- Plastic pallets are mainly made from **HDPE material** through IM or Thermoforming process.
- Based on requirements can choose different type and design : Nestable, Solid surface Rackable, Stackable, Export Pallet & Industrial Pallet are some common types.
- Can be customised with Color, Design and Size.
