

Lab VIEW Programming		Semester	3
Course Code	BEC358A	CIE Marks	50
Teaching Hours/Week (L:T:P: S)	0:0:2	SEE Marks	50
Credits	01	Total	100
		Exam Hours	2
Examination type (SEE)	Practical		
Course objectives: <ul style="list-style-type: none">• Aware of various front panel controls and indicators.• Connect and manipulate nodes and wires in the block diagram.• Locate various tool bars and pull-down menus for the purpose of implementing specific functions.• Locate and utilize the context help window.• Familiar with LabVIEW and different applications using it.			
Sl.NO	VI Programs(using LabVIEW software)to realize the following:		
1	Basic arithmetic operations: addition, subtraction, multiplication and division		
2	Boolean operations: AND, OR, XOR, NOT and NAND		
3	Sum of ‘n’ numbers using ‘for’ loop		
4	Factorial of a given number using ‘for’ loop		
5	Determine square of a given number		
6	Factorial of a given number using ‘while‘ loop		
7	Sorting even numbers using ‘while’ loop in an array		
8	Finding the array maximum and array minimum		
	Demonstration Experiments (For CIE)		
9	Build a Virtual Instrument that simulates a heating and cooling system. The system must be able to be controlled manually or automatically.		
10	Build a Virtual Instrument that simulates a Basic Calculator (using formula node).		
11	Build a Virtual Instrument that simulates a Water Level Detector.		
12	Demonstrate how to create a basic VI which calculates the area and perimeter of a circle.		
Course outcomes (Course Skill Set): At the end of the course the student will be able to: <ul style="list-style-type: none">• Use LabVIEW to create data acquisition, analysis and display operations• Create user interfaces with charts, graph and buttons• Use the programming structures and data types that exist in LabVIEW• Use various editing and debugging techniques.			

Assessment Details (both CIE and SEE)

The weightage of Continuous Internal Evaluation (CIE) is 50% and for Semester End Exam (SEE) is 50%. The minimum passing mark for the CIE is 40% of the maximum marks (20 marks out of 50) and for the SEE minimum passing mark is 35% of the maximum marks (18 out of 50 marks). A student shall be deemed to have satisfied the academic requirements and earned the credits allotted to each subject/ course if the student secures a minimum of 40% (40 marks out of 100) in the sum total of the CIE (Continuous Internal Evaluation) and SEE (Semester End Examination) taken together.

Continuous Internal Evaluation (CIE):

CIE marks for the practical course are **50 Marks**.

The split-up of CIE marks for record/ journal and test are in the ratio **60:40**.

- Each experiment is to be evaluated for conduction with an observation sheet and record write-up. Rubrics for the evaluation of the journal/write-up for hardware/software experiments are designed by the faculty who is handling the laboratory session and are made known to students at the beginning of the practical session.
- Record should contain all the specified experiments in the syllabus and each experiment write-up will be evaluated for 10 marks.
- Total marks scored by the students are scaled down to **30 marks** (60% of maximum marks).
- Weightage to be given for neatness and submission of record/write-up on time.
- Department shall conduct a test of 100 marks after the completion of all the experiments listed in the syllabus.
- In a test, test write-up, conduction of experiment, acceptable result, and procedural knowledge will carry a weightage of 60% and the rest 40% for viva-voce.
- The suitable rubrics can be designed to evaluate each student's performance and learning ability.
- The marks scored shall be scaled down to **20 marks** (40% of the maximum marks).

The Sum of scaled-down marks scored in the report write-up/journal and marks of a test is the total CIE marks scored by the student.

Semester End Evaluation (SEE):

- SEE marks for the practical course are 50 Marks.
- **SEE shall be conducted jointly by the two examiners of the same institute, examiners are appointed by the Head of the Institute.**
- The examination schedule and names of examiners are informed to the university before the conduction of the examination. These practical examinations are to be conducted between the schedule mentioned in the academic calendar of the University.
- All laboratory experiments are to be included for practical examination.
- (Rubrics) Breakup of marks and the instructions printed on the cover page of the answer script to be strictly adhered to by the examiners. **OR** based on the course requirement evaluation rubrics shall be decided jointly by examiners.
- Students can pick one question (experiment) from the questions lot prepared by the examiners jointly.
- Evaluation of test write-up/ conduction procedure and result/viva will be conducted jointly by examiners.

General rubrics suggested for SEE are mentioned here, writeup-20%, Conduction procedure and result in -60%, Viva-voce 20% of maximum marks. SEE for practical shall be evaluated for 100 marks and scored marks shall be scaled down to 50 marks (however, based on course type, rubrics shall be decided by the examiners)

Change of experiment is allowed only once and 15% of Marks allotted to the procedure part are to be made zero.

The minimum duration of SEE is 02 hours
