

Hello SoGrizz quilty friends,

Autumn has announced itself, and I'm super happy! This is always my favourite season. You just can't beat a sunny autumn day – walking in the woods with Grizzly, admiring nature's changing colours and the mushrooms galore. And on those rainy autumn days? Well, those are PERFECT for quilting, warm and cosy inside.

Beginner's Workshops: Parts 1 & 2

If you are a beginner quilter and haven't joined us on this adventure yet, make sure to join us for Part 1 of the SoGrizz Beginner's Workshops. It is such a wonderful way to be introduced to quilting and to build up some confidence before heading out to explore on your own. Part 2 is designed for people who have completed Part 1 and are ready to expand their skills!

Group sizes are small, so personal attention is high! Also, classes are given either in English or Dutch, whichever the participants prefer.

Part 1: "Sew It Begins" - Foundations of Quilting

The aim of this first workshop in our Beginner's Series is to teach you all the basic steps needed to produce a quilt. It is a gentle introduction, which will teach you the fundamentals without it being too challenging.

Part 2: "Sew Much More" - Exploring Technique

Part 2 of the Beginner's Series will build on skills learned in part 1, and start to add some new techniques. As you practice your existing and new skills, you will also continue to learn more about the workings of the sewing machine, and quilting tools.

Read all about the skills you will be learning, and other details, here:
