

# Assembly Instructions

Dumbbell Rack

HZ-0002

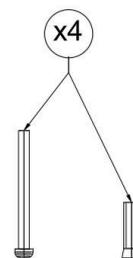

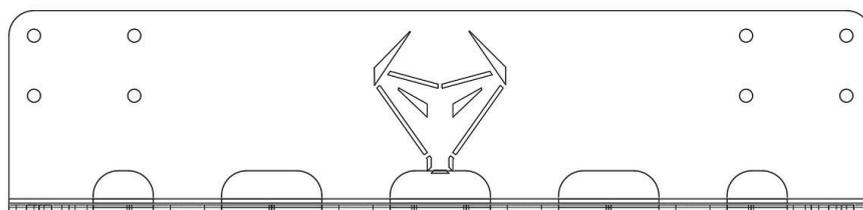

Thank you for purchasing the **HORIZONTE** by **LEZO CONCEPT** dumbbell rack.

This product has been designed to optimize space and display your dumbbells as a decorative element.

## Included in the box

- Dumbbell rack
- 4 screws M5 × 40
- 4 wall plugs diameter 8 mm

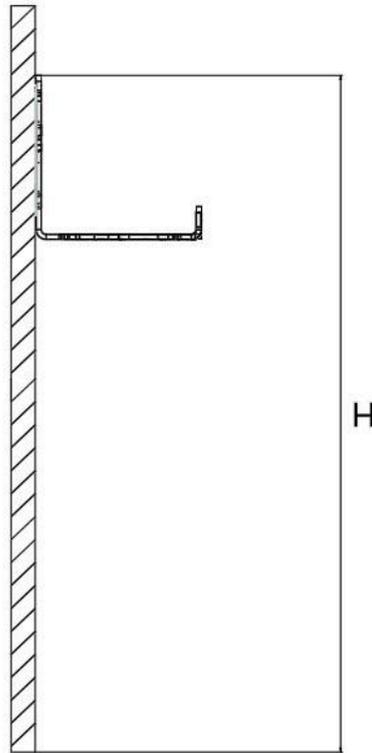

## Tools required

- Electric drill
- 8 mm drill bit
- Level
- Phillips screwdriver

# Installation

1. Choose a **solid wall** to securely install your rack.
2. Measure the desired **total height from the floor**.

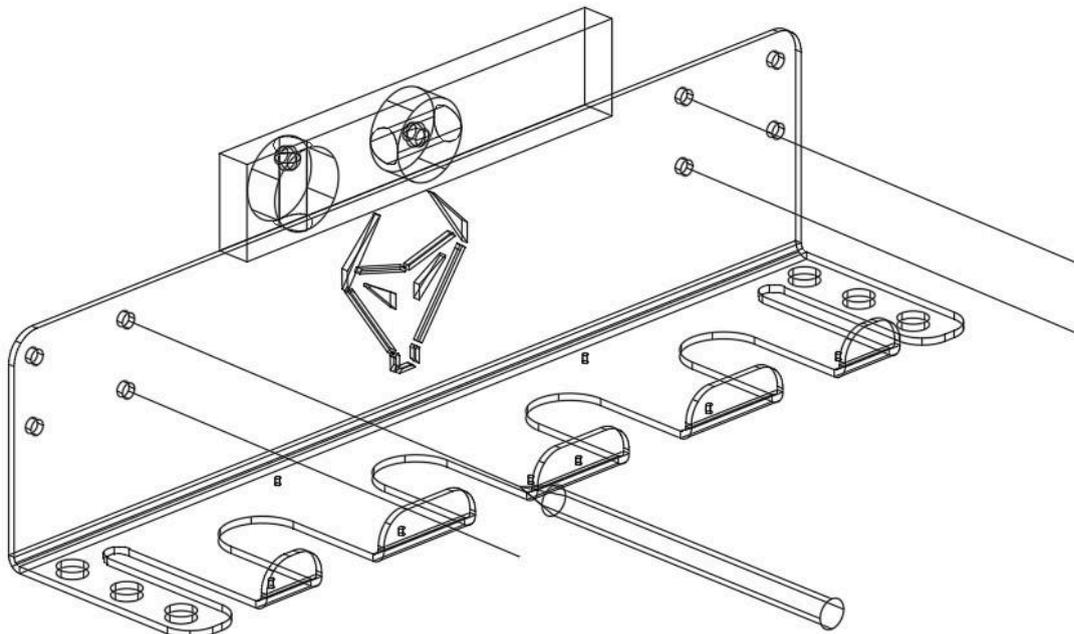

3. Mark the desired height using a **level and a pencil**, and drill holes at the marked points using a drill and an **8 mm drill bit**.

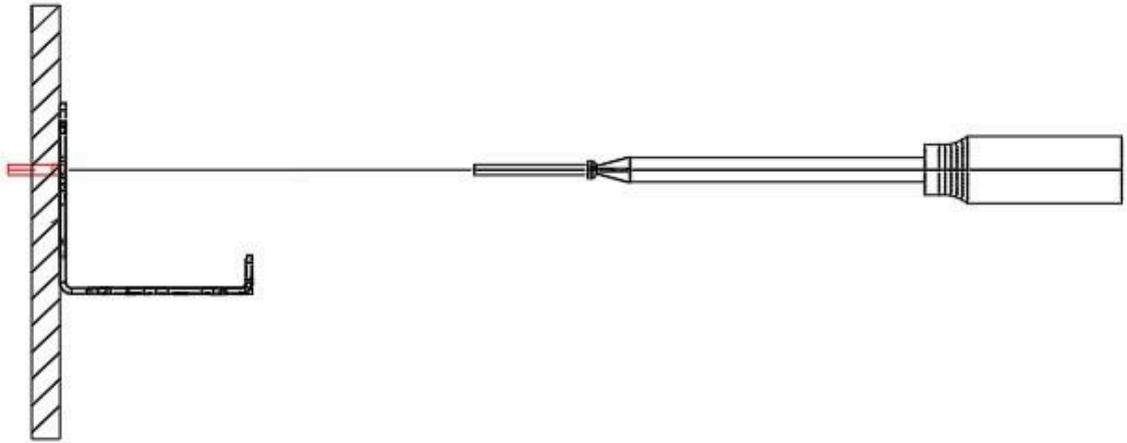

**Note:**

Whenever possible, use the **inner holes of the rack** to maximize installation rigidity.

The **outer holes** are intended for walls with **fixed studs or beams** where the distance cannot be chosen.

4. Insert the wall plugs into the holes you have just drilled and then, passing the screws through the holes, screw the rack to the wall.

**Your practical HORIZONTE dumbbell rack is now ready to use.**

# Safety information / Warnings

## 1. Maximum load

Do not use the wall racks for more than 80 kg total weight.  
Exceeding this limit may cause damage to the wall or injury.

## 2. Installation location

Install the product only on solid and resistant walls (concrete, solid brick or solid wood).

Do not install on drywall / plasterboard walls, lightweight partitions or hollow surfaces, as they may deform or break under the weight.

## 3. Adult installation

Installation must be carried out only by adults using appropriate tools.  
Not suitable for installation by children.

## 4. Periodic inspection

Regularly check that the screws and wall plugs are properly tightened.

Tighten any loose screw immediately to prevent accidents.

## 5. Proper use

Use the rack only for hanging dumbbells.

Do not climb, hang from it, or place body weight or other heavy objects on it.

## 6. Keep away from children and pets

Keep children and animals away during installation and use.

## 7. Disclaimer

The manufacturer is not responsible for damage caused by incorrect installation, overload, or improper use.
