Under40s

I'm Lee — Founder of Lee Shoot Film and Under40s.

To tell a bit about myself: I'm an early 9x who's been through many different jobs before finding my "pause point" — right here, in this bustling city, with a camera in hand and the stories of others to tell. I'm not someone who talks much, so perhaps everything I want to say is already within my photos and films.

Lee Shoot Film was born for me to tell love stories through still images — honest and gentle. With Under40s, I continue that storytelling in motion — through light, sound, and the truest emotions between two people, unposed and untrendy. I simply want to document your story, if you allow me — in the most genuine way, and with all my heart.

“Maybe we can just meet and talk **instead of reading all this?**”

“Of course! Meeting in person is always the best way to talk and get to know each other better. Just send us a few details — which package you’re interested in, your wedding date, venue, and a little bit about you two.”

“Love isn’t just an emotion,
it’s **a celebration.**”

PRE-WEDDING

For us, a Pre-Wedding shoot isn't about posing or acting. It's a moment for you two to slow down, to look at each other, to laugh together, and let your genuine emotions speak.

It could be on a familiar street corner, at a small café, or simply walking hand in hand under the afternoon sun — every moment is precious when it's real. When you look back someday, you'll see more than just photos or a film from the days before your wedding — you'll see the gentle love that brought you there.

That's all it needs to be — and that's enough to keep forever.

WEDDING DAY

Your wedding day is a journey of many intertwined emotions — excitement, joy, a little chaos, but filled with love.

We capture every moment just as it is: the laughter in the getting-ready room, the tender glance from your parents, and the moment you walk side by side into the aisle. There's no need to pose or try to be perfect.

Just live your day fully — and we'll quietly preserve it all. So that one day, when you look back, you'll still feel that same touch of hands and know — this is where your shared journey truly began.

How Lee Shoot Film and Under40s Work

What matters most is that we don't just film or photograph — we document everything that truly happens.

The genuine, unscripted moments of your wedding day — from the morning light and shared smiles to those tight, emotional hugs — are all captured through both stills and moving frames.

Sometimes, we'll make small adjustments for better light or composition, but most of the time, our cameras simply observe — quietly and patiently — allowing emotions to unfold naturally.

You don't have to act or try to look “cinematic.” Most couples who work with Lee Shoot Film and Under40s tell us, “We don't know how to pose,” yet we always see the opposite.

When you're true to your feelings, the camera will always find a way to tell your story — beautifully, honestly, and in a way that belongs only to you.
