INTERN EXPERIENCE

VR Della • Trichy

Aug 2024 - Oct 2024

Role: Data Analyst & Frontend Developer

- Analyzed performance data from ECG machine development, leading to actionable insights that improved device accuracy and usability.
- Designed responsive frontend interfaces to improve usability, data visualization, and visual representation of health metrics.
- Collaborated with engineering and analyst teams to ensure data-driven decisions aligned with product development goals.
- Delivered insights to improve system efficiency and support strategic decision-making.

PROJECTS

ServiceNest – Service Provider Platform (React JS ,Django ,My SQL)

- Developed a web platform to connect local users with nearby service providers using manual location inputs and data filtering logic.
- Integrated user authentication with CAPTCHA, service rating and review modules, and verification mechanisms for technician identity.
- Employed SQL and Django backend to personalize service suggestions based on user history.
- Worked within a 2-member team to gather feedback, conduct user testing, and continuously refine the user experience.
