

Duos

The dating app for gamers.

Founded 2021 · Los Angeles, CA · duosapp.com

iOS & Android

ABOUT

Duos is the first dating and social app built specifically for gamers. Rather than treating gaming as a profile checkbox, Duos makes it the foundation of every connection — matching users by their four favorite games and giving them a community space to meet others through shared play.

THE STORY

"A love triangle fractured my friend group. As a filmmaker pivoting into business, I asked myself: why don't gamers have a dedicated dating app just for them?"

— Sebastian Slaughter, CEO & Co-Founder

KEY FEATURES

- **Match by game library.**
Users select their four favorite games to power compatibility matching — shared taste, not shared demographics.
- **The Community.**
A built-in forum where gamers connect by discussing games and sharing content — beyond the swipe.
- **Gaming as a lifestyle.**
Duos treats gaming as a core identity, not a filter on a generic dating profile.
- **Dual-mode platform.**
Available on both iOS and Android, supporting dating and social discovery in one seamless app.

POSITIONING

The global gaming market exceeds 3 billion players. Duos is purpose-built for the segment mainstream dating apps have never served — people whose social lives and identities are organized around play.

"Stop playing with yourself."™
